中考英语完形填空：科技馆的探秘之旅

完形填空原文

During the spring holiday, our school organized a trip to the science museum. I had never been there before, so I was full of ***1***. When we entered the huge building, I was amazed by all the interesting ***2*** around me.

The first exhibit we visited was about space. We could touch a real piece of meteorite and learn about the ***3***. A guide explained how astronauts live and work in space. I listened carefully and asked many questions. The guide smiled and said I had a ***4*** mind.

Then we moved to the robotics section. There were robots that could dance, play chess, and even ***5*** simple conversations. I tried to control one with a remote, but at first I couldn't make it move correctly. After several ***6***, I finally succeeded. My classmates cheered for me.

Before we left, we watched a 3D film about the deep sea. The creatures and the underwater world were so ***7*** that I felt as if I were really diving. When the film ended, I made a ***8*** to myself: I would work hard and maybe one day become a scientist to explore the unknown world.

That day at the museum, I learned that science is not only in textbooks. It is ***9*** us, waiting to be discovered. Every question we ask brings us ***10*** to the truth.
