# 中考英语完形填空：书包里的文具盒

## 完形填空原文

Every morning when I pack my schoolbag, I always put my pencil case in the front pocket. It is a blue box that my mother gave me on my first day of junior high. Though it is not expensive, it is very ***1*** to me. Inside there are pencils, erasers, a ruler and a few pens. These small things help me get through every school day.

One Monday, I forgot to bring my pencil case. I had to ***2*** pens from my classmates. I felt so sorry for troubling them. From that day on, I made a habit of checking my bag before leaving home. A small pencil case may seem ***3***, but it plays an important role in our daily study. Without it, we cannot take notes clearly or ***4*** our homework neatly. Good habits start from small things. Being organized helps us save time and avoid ***5***.

My pencil case also reminds me of my mother's love. She chose it carefully because she wanted me to study hard and take care of my ***6***. Every time I open it, I think of her words: "Use your tools well, and they will serve you well." I try to keep my pencils sharp and my erasers clean. I never throw them around carelessly. In this way, I show ***7*** for both the gifts and the person who gave them.

Some classmates like to buy new stationery every week. But I believe that what matters is not how new or expensive our things are, but how we ***8*** them. My old pencil case still works perfectly after two years. It has become a silent ***9*** that stays with me every day. When I grow up, I will keep it as a memory of my junior high years. It will always remind me of the simple ***10*** that small things in life can bring great meaning.
