06-21 第1篇

中考英语完形填空：食堂的餐盘

完形填空原文

Every day at lunchtime, we go to the school canteen. There, we each get a tray to hold our food. The trays are simple and plastic, but they play an important ***1*** in our school life. When I hold my tray, I walk carefully to avoid spilling. I have learned to ***2*** my steps and keep my balance.

The canteen workers put different dishes on our trays. We can choose what we like. Some students always take vegetables because they want to stay ***3***. Others prefer meat and rice. I think it's good to have a balanced meal. The tray helps us carry everything at once. Without it, we would need to make many ***4*** to get our food.

After we finish eating, we take our trays to the collection area. We should put them in the right place. This is a small thing, but it shows our ***5*** to keep the canteen clean. When everyone does this, the workers have less work to do. I feel happy when I see a tidy canteen.

Sometimes I sit with my friends and we share the same table. We put our trays side by side and talk while eating. The tray becomes a ***6*** that brings us together. We discuss homework, share stories, and laugh together. These lunch breaks are some of my favorite ***7*** at school.

The canteen tray has taught me something simple but important. It reminds me that small things can be useful. It also reminds me to be ***8*** and take care of shared things. When I graduate, I will remember the trays, the food, and the happy moments with my classmates. The tray is not just for food—it carries our ***9*** and friendship. I am ***10*** for these ordinary days at the canteen.

选项

1. A. role B. place C. way D. time
2. A. slow B. count C. control D. follow
3. A. strong B. healthy C. tall D. clever
