中考英语完形填空：学校文艺汇演

完形填空原文

The school art show was the most exciting event of our semester. When our teacher asked who wanted to take part, I raised my hand ***1*** thinking. I loved singing and had always dreamed of standing on the stage. However, when the day came closer, I became more and more ***2***. What if I forgot the words? What if people laughed at me?

My best friend Tina saw that I was worried. She told me that everyone feels nervous before a performance. "Just practice more and ***3*** in yourself," she said. Her words made me feel better. I practiced my song every day after school. Sometimes I sang in front of the mirror to see how I looked. I also asked my family to listen and give me ***4***.

The night before the show, I could hardly sleep. I kept ***5*** about the next day. When I got to school, I saw many students in colorful costumes. The hall was full of parents and teachers. My hands were shaking when it was my ***6*** to go on stage. I took a deep breath and walked out. The bright lights made me blink, but then I started to sing. To my surprise, I remembered every word. The audience was quiet and listened carefully. When I finished, everyone clapped loudly. I felt so ***7*** that I smiled from ear to ear.

That experience taught me an important lesson: fear is natural, but we should not let it ***8*** us from trying. If we prepare well and believe in ourselves, we can do better than we think. Now I look forward to next year's art show. I might try something new, like playing a musical ***9*** or joining a dance group. The stage is not as scary as it seems. It is a place where we can ***10*** our talents and share our joy with others.
