参考范文

Save Food, Waste Nothing

Have you ever noticed how much food is thrown away in our school canteen every day? Many students take more food than they can eat, and some simply throw away what they don't like. This is a serious problem that we should not ignore.

Every grain of rice on our plate comes from the hard work of farmers. Behind every meal, there are months of planting, watering, and harvesting. Wasting food means wasting their effort and our precious resources. Besides, food waste adds to environmental pollution when it is sent to landfills.

So what can we do? First, take only what you can finish — it's better to get a small portion and come back for more. Second, learn to eat different kinds of food instead of being picky. Third, if there are leftovers at home, keep them for the next meal instead of throwing them away.

As the old saying goes, "Waste not, want not." Let's treasure every bite and make saving food a daily habit.

全文翻译

节约粮食，杜绝浪费

你有没有注意到我们学校食堂每天有多少食物被扔掉？许多同学打的饭菜比他们能吃完的多，有些人干脆把不喜欢吃的倒掉。这是一个不应该被忽视的严重问题。

我们盘中的每一粒米都来自农民的辛勤劳动。每一顿饭的背后，是几个月的播种、浇水和收割。浪费食物意味着浪费他们的劳动和我们宝贵的资源。此外，食物垃圾被送到填埋场时还会增加环境污染。

那我们能做什么呢？首先，只拿你能吃完的量——少拿一些，不够再添。其次，学会吃各种食物，不要挑食。第三，如果家里有剩菜，留到下顿吃而不是倒掉。

正如那句老话说的："不浪费，不匮乏。"让我们珍惜每一口食物，把节约粮食变成日常习惯。
