参考范文

How Technology Changes Our Lives

There is no doubt that technology has changed our lives in many ways. It has made the world smaller, faster and more connected than ever before.

On the one hand, technology brings us great convenience. With a smartphone, we can shop online, pay bills and communicate with friends thousands of miles away in just seconds. Thanks to the Internet, students now have access to a huge library of knowledge — we can watch educational videos, take online courses and learn almost anything at any time. Technology has truly opened doors that were once closed.

On the other hand, technology also comes with problems. Many people, especially teenagers, spend too much time staring at screens, which can damage their eyesight and affect their sleep. What is more, as we get used to chatting online, face-to-face communication is slowly fading away. Some families sit together at dinner but hardly talk to each other because everyone is busy with their own phone.

In my opinion, technology is a double-edged sword. The key is to use it wisely. We should learn to master technology rather than be mastered by it.

全文翻译

科技改变生活

毫无疑问，科技在很多方面改变了我们的生活。它让世界变得更小、更快、前所未有地紧密相连。

一方面，科技带给我们极大的便利。用一部智能手机，我们就可以网购、付账单，还能在几秒钟内与千里之外的朋友交流。借助互联网，学生们现在可以接触到海量的知识宝库——我们可以看教学视频、上网课，随时随地学习几乎任何东西。科技真正打开了曾经关闭的大门。

另一方面，科技也带来了问题。很多人，尤其是青少年，花太多时间盯着屏幕，这会伤害视力、影响睡眠。更重要的是，随着我们习惯了在线聊天，面对面的交流正在慢慢消失。有些家庭在一起吃晚餐，却几乎不交谈，因为每个人都在忙自己的手机。

在我看来，科技是一把双刃剑。关键在于合理使用。我们应该学会驾驭科技，而不是被科技驾驭。
