中考英语完形填空：第一次坐地铁

完形填空原文

Last Saturday, I took the subway for the first time with my older cousin. We were going to a bookstore downtown. I was very *1* because I had only seen subways in movies before.

When we arrived at the station, I was amazed by how big it was. There were escalators going up and down, and *2* of people were walking in different directions. My cousin showed me how to buy a ticket from the machine. I put in some coins and pressed the right button. A small card came out, and I felt like I had done something really *3*.

We walked through the ticket gate and waited on the platform. A few minutes later, the train arrived with a loud *4*. The doors opened and people rushed out. My cousin told me to wait until everyone got off before we stepped *5*. Inside, the train was clean and bright. We found two empty seats near the door.

As the train started moving, I looked out of the window. Everything outside was *6* because we were underground. But soon the train came above ground, and I could see tall buildings and busy streets *7* by quickly. It was like watching a fast-forwarded movie.

After four stops, we arrived at our *8*. My cousin reminded me to keep the ticket because we needed it to exit. When we walked out of the station, I realized the bookstore was just across the street. Taking the subway had been much *9* than taking the bus.

On the way home, I was no longer nervous. I even helped an old lady find the right *10* on the subway map. She thanked me and said I was very helpful. That made my day even better.
