06-20 第1篇

阅读理解（应用文）

① **Summer Safety Tips — Stay Away from Drowning**

② Summer is the season when many students enjoy swimming. However, drowning (溺水) is one of the top causes of death among children. To keep yourselves safe, please follow these important rules.

③ **Never swim alone.** Always swim with at least one adult or friend who can swim well. If something goes wrong, they can help you. Never swim in rivers, lakes or the sea without an adult nearby. These places can be very dangerous.

④ **Know the danger signs.** If you feel tired, cold, or your legs cramp (抽筋) while swimming, get out of the water right away. Do not try to swim when the weather is bad. Strong winds and rain can make the water unsafe. If you see a "No Swimming" sign, never enter the water.

⑤ **Learn basic skills.** Before you swim, warm up your body. If someone is in trouble in the water, do not jump in to save them — you might get into danger too. Shout for help and throw them something that can float, like a life ring or a plastic bottle. Remember: your safety comes first!

注释： drowning 溺水；cramp 抽筋；float 漂浮
