Jumping Rope Together

① Last month, our school held a rope skipping competition. Each class had to form a team of eight students. The rule was simple: the team that kept jumping the longest without any mistakes would win. Li Ming was one of our team members. He was good at sports, but rope skipping was not his best skill. At first, he often broke the rhythm and made the whole team stop. We lost several practice rounds because of him.

② "I'm sorry. I'm dragging the team down," Li Ming said after another failed practice. His face looked sad. Wang Fang, our team captain, patted him on the shoulder. "We are a team. We win together and we learn together. Nobody jumps alone," she said. She asked Li Ming to practice with her after class. Every afternoon, they jumped together in the playground. Wang Fang counted the rhythm aloud so Li Ming could follow. Slowly, Li Ming got better.

③ The day of the competition arrived. We stood in a line, waiting for the signal. My heart was beating fast. "One, two, three, jump!" Wang Fang called out. We jumped in perfect rhythm. Li Ming did not miss a single beat. The other teams dropped out one by one. We kept jumping. The crowd began to cheer. Finally, the judge announced, "Stop!" We had won first place. We hugged each other and laughed. Li Ming's eyes were bright with joy.

④ After the competition, our teacher said, "This is what teamwork looks like. When one person has difficulty, the whole team helps. That is how you achieve something great." Li Ming stood up and thanked Wang Fang and everyone. "I could not have done it without you," he said. We all knew it was true. One person's success in a team is everyone's success.

⑤ That rope skipping competition taught me an important lesson. We did not win because we had the best jumper. We won because we learned to work together, support each other, and never give up on any member of our team.
