A Guide to Managing Your Pocket Money

①Do you get pocket money from your parents? How do you spend it? Learning to manage money when you are young can help you for your whole life. Here are some simple tips for students.

②**Record your spending.** Use a small notebook or an app to write down what you buy and how much you spend. At the end of the week, look at your list. You might be surprised. A few small snacks each day can add up to a lot. Knowing where your money goes is the first step to managing it well.

③**Follow the 50-30-20 rule.** Divide your pocket money into three parts: 50% for needs (like bus fare or lunch), 30% for wants (like snacks or games), and 20% for saving. Put the saving part in a piggy bank or a separate box. Do not touch it unless there is a real need. Saving even a little each week will grow over time.

④**Set a goal.** What do you want to buy? A new book? A gift for your parents? Write it down and work out how much you need to save each week. When you reach your goal, you will feel proud. Goals make saving fun.

⑤**Ask before you spend.** If you want to buy something expensive, talk to your parents first. They can help you decide if it is worth it. Sometimes we want things in the moment but regret later. A quick chat can save you from wasting money.

Rule	Use
50%	Needs (bus fare, lunch, etc.)
30%	Wants (snacks, games, etc.)
20%	Saving

生词注释

- piggy bank 存钱罐
- fare /feə/ n. 车费
