11-20 第一篇

Emotional Intelligence: The Key to Success in Life

Emotional intelligence, or EQ, is the ability to recognize, understand, and manage our own emotions, as well as to recognize and respond to the emotions of others. While IQ measures academic and logical skills, EQ focuses on how we handle feelings, relationships, and social situations. Research shows that people with high EQ often do well in school, at work, and in their personal lives. They tend to have stronger friendships, better teamwork skills, and fewer conflicts with others. [1] In many ways, emotional intelligence is just as important as academic intelligence for a happy and successful life.

One part of emotional intelligence is self-awareness—knowing what we feel and why. When we are aware of our emotions, we can choose how to react instead of acting impulsively. For example, if we feel angry, we might pause and take a deep breath before speaking. If we feel nervous before a test, we might remind ourselves that we have prepared well. [2] Learning to understand our own emotions helps us stay in control and make better decisions, especially when we face stress or difficulty.

Another important part of EQ is empathy—the ability to see things from another person's point of view. Empathetic people listen carefully when others speak and try to understand their feelings. They are less likely to judge or criticize quickly. Empathy helps build trust and makes it easier to resolve disagreements. In teams, empathy allows members to support each other and work together more effectively. [3] By developing empathy, we strengthen our relationships and create a more positive environment for everyone around us.

Emotional intelligence can be improved with practice. We can start by paying more attention to our feelings throughout the day. We can also practice active listening—giving our full attention when someone is talking instead of thinking about what we will say next. Role-playing or discussing different situations with friends or teachers can help us learn better responses. [4] Like any other skill, emotional intelligence grows stronger when we work on it deliberately and consistently over time.

Schools and workplaces are starting to value emotional intelligence more than before. Some schools teach social and emotional skills as part of the curriculum. Companies look for employees who can work well with others and handle pressure. [5] As we move through life, the ability to understand and manage emotions—both our own and others'—will continue to play a vital role in our success and happiness.

选项

A. In many ways, emotional intelligence is just as important as academic intelligence for a happy and successful life. B. Learning to understand our own emotions helps us stay in control and make better decisions, especially when we face stress or difficulty. C. By developing empathy, we strengthen our relationships and create a more positive environment for everyone around us. D. Like any other skill, emotional intelligence grows stronger when we work on it deliberately and consistently over time. E. As we move through life, the ability to understand and manage emotions—both our own and others'—will continue to play a vital role in our success and happiness. F. For example, a study found that students who received emotional intelligence training showed improved behavior and better academic performance compared to those who did not.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- **[1] A**：
  - **线索**：空前介绍情商定义——识别、理解、管理自己与他人的情绪，与智商对比，并指出高情商者在学业、工作、人际关系上的优势，空后需总结情商的重要性。A的"just as important as academic intelligence"与前文IQ与EQ对比呼应，"for a happy and successful life"概括前文多领域成功。
- **[2] B**：
  - **线索**：空前说明自我觉察——知道自己的感受与原因、选择反应而非冲动、举例愤怒与考前紧张，空后需总结自我觉察的作用。B的"Learning to understand our own emotions"与前文self-awareness对应，"stay in control and make better decisions"概括情绪管理带来的好处。
- **[3] C**：
  - **线索**：空前描述共情——换位思考、倾听、不急于评判、建立信任、解决分歧、促进团队合作，空后需总结共情的价值。C的"By developing empathy"与前文共情内容对应，"strengthen our relationships and create a more positive environment"概括共情的社会效益。
- **[4] D**：
  - **线索**：空前列举提升情商的方法——关注感受、积极倾听、角色扮演、讨论情境等，空后需总结情商的可习得性。D的"Like any other skill"与前文练习方法呼应，"grows stronger when we work on it deliberately and consistently"点明持续练习的作用。

- [5] E：
    - **线索**：空前描述学校与职场对情商的重视，空后需收束全文。E的"As we move through life"承接全文讨论，"the ability to understand and manage emotions... will continue to play a vital role"是全文主题的升华收尾。
- **干扰项分析**：
    - **F. For example, a study found that students who received emotional intelligence training showed improved behavior and better academic performance compared to those who did not.**：以For example开头，为具体研究案例。各空均为概括或过渡句；[1]易被误选因涉及情商与学业，但该空需对前文多维度描述做整体概括，而非引用某研究结果。
