12-04 第二篇

Indoor Plants: Bringing Nature Inside

Indoor plants have become increasingly popular in homes and offices. They add color, life, and a touch of nature to indoor spaces. Beyond their beauty, many plants are believed to improve air quality by absorbing some pollutants. Caring for plants can also be a relaxing hobby that helps people unwind after a busy day. Whether you have a sunny windowsill or a dim corner, there is likely a plant that can thrive there. [1]

Choosing the right plant depends on the conditions in your space. Some plants, like succulents and cacti, need lots of sunlight and little water. Others, such as pothos and snake plants, can survive in low light and are forgiving if you forget to water them. Knowing your room's light level and how often you can care for plants helps you pick species that will last. [2]

Basic plant care is simple. Most indoor plants need well-draining soil and pots with drainage holes. Overwatering is a common mistake—many plants prefer to dry out a bit between waterings. A light fertilizing during the growing season can help plants stay healthy. Dusting leaves occasionally lets plants absorb more light. [3]

Plants can also improve well-being. Studies suggest that being around plants may reduce stress and boost mood. Some people find that tending plants gives them a sense of purpose and connection to nature. In offices, plants can make spaces feel more welcoming and may even help people focus better. [4]

You do not need a green thumb to start. Begin with one or two easy-care plants and learn as you go. If a plant does not thrive, it is a chance to learn what went wrong and try again. With a little attention, indoor plants can transform a room and bring a bit of the outdoors inside. [5]

选项

A. Indoor plants offer a simple way to brighten your space, improve your environment, and add a calming hobby to your daily routine. B. Matching plants to their ideal conditions is the key to keeping them healthy and happy. C. With a few basic rules, most people can keep indoor plants alive and growing. D. These benefits make indoor plants more than decoration—they contribute to a healthier and more pleasant indoor environment. E. Anyone can become a plant parent with a bit of curiosity and willingness to learn from both success and failure. F. For example, the peace lily is known for its ability to thrive in low light and can bloom with white flowers indoors.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- **[1] A**：
  - **线索**：空前介绍室内植物流行、增添色彩与生机、或改善空气质量、照料可放松、不同光环境都有适配植物，空后需总结室内植物的综合价值。A的"brighten your space, improve your environment, and add a calming hobby"与前文多重作用呼应，"simple way"与"there is likely a plant that can thrive"对应。
- **[2] B**：
  - **线索**：空前说选植物看空间条件、喜光少水型（多肉仙人掌）、耐阴耐旱型（绿萝虎皮兰）、了解光照与养护频率有助于选择，空后需总结匹配条件的重要性。B的"Matching plants to their ideal conditions"指代前文，"key to keeping them healthy and happy"与前文对应。
- **[3] C**：
  - **线索**：空前说基本养护简单——排水土与孔洞、避免过度浇水、生长期适度施肥、偶尔擦叶，空后需总结基本规则的可行性。C的"With a few basic rules"与前文对应，"most people can keep indoor plants alive and growing"与前文呼应。
- **[4] D**：
  - **线索**：空前说植物或能减压提神、照料带来意义与自然联结、办公室中可营造氛围与助专注，空后需总结健康与环境效益。D的"These benefits"指代前文，"more than decoration—they contribute to a healthier and more pleasant indoor environment"与前文对应。
- **[5] E**：
  - **线索**：空前说不必天生绿手指、从一两盆易养植物起步、失败可学习再试、稍加用心即可改变空间，空后需总结入门门槛。E的"Anyone can become a plant parent"与前文对应，"curiosity and willingness to learn from both success and failure"与前文"learn as you go"呼应。
- **干扰项分析**：
  - **F. For example, the peace lily is known for...**：以For example开头，为具体植物案例（白掌）。各空均为概括或过渡句；[2]易被误选因涉及植物种类，但该空需总结植物与条件的匹配原则，而非补充某一耐阴植物的特性细节。
