11-12 第2篇

中考英语完形填空：学做彩色蜡烛

完形填空原文

Last weekend, I joined a candle-making class at the community center. I had always thought candles were just for giving *1*, but this class showed me they could also be beautiful works of art.

The teacher prepared all the materials for us: wax blocks, wicks, dyes in different colors, fragrance oils, and glass containers. She said making candles is not *2* at all if you follow the steps carefully.

First, we broke the wax blocks into small pieces and put them into a pot. The teacher heated the pot slowly until the wax *3*. She told us never to heat it too fast, or it might be dangerous. Safety is always the most *4* thing.

When the wax became liquid, we added the dye. I chose blue and purple because I wanted my candle to look like the night *5*. I stirred the wax gently until the colors mixed well. Then I added a few drops of lavender fragrance oil. The sweet smell made everyone *6*.

Next, we placed a wick in the center of our glass container. The teacher helped us hold it straight with two chopsticks. Then we *7* poured the colored wax into the container. I added the blue wax first, waited a few minutes, and then added the purple wax on top. This created a beautiful two-layer *8*.

We had to wait about an hour for the candles to cool down and become solid. While waiting, the teacher showed us photos of candles in different *9*: stars, flowers, and even animals. I want to try making those next time.

When I took my candle home, my mother was surprised by how beautiful it was. She said it would be a perfect *10* for her reading table. I was very proud of my work.

选项

1. A. light B. heat C. food D. water
2. A. easy B. difficult C. boring D. expensive
3. A. froze B. melted C. burned D. dried
4. A. funny B. common C. important D. simple
