11-23 第2篇

中考英语完形填空：学做扎染手帕

完形填空原文

In our art class last week, we learned tie-dye, a traditional craft. The teacher brought white cotton handkerchiefs and bottles of fabric dye. She said we could create our own patterns by folding and tying the cloth before ***1*** it. I had seen tie-dye clothes in shops but never tried to make ***2*** myself.

First, we laid the handkerchief flat on the table. The teacher showed us different folding methods—we could fold it into a triangle, a square, or just roll it. I chose to fold mine like a fan. Then we used rubber bands to tie the cloth tightly. The teacher said the tied parts would stay white because the dye could not ***3*** them. The rest would become colorful.

Next, we put on gloves and mixed the dye with water. I chose blue and purple—my favorite colors. We dipped the tied handkerchief into the dye. I had to wait for about twenty minutes. I was so ***4*** to see the result that I kept checking the time.

When the time was up, we took out the handkerchief and rinsed it with cold water until the water ran clear. Then we ***5*** cut the rubber bands and unfolded the cloth. I was amazed! The pattern was beautiful—circles and lines in blue and purple. No two handkerchiefs looked the ***6***. Each one was unique.

I gave my tie-dye handkerchief to my mom. She said it was lovely and would use it when she goes out. Making tie-dye taught me that we can create beautiful things with simple ***7***. I want to try tie-dyeing a T-shirt next time. Maybe I can make one for my dad as a birthday gift. This craft is fun and ***8*** to learn. Anyone can give it a try. I plan to ***9*** what I learned with my cousin so we can make tie-dye gifts together. Learning from a good ***10*** and practicing hands-on is the best way to master a skill.
