11-25 第2篇

中考英语完形填空：学做毛毡玩偶

完形填空原文

Last weekend, I joined a craft workshop and learned how to make felt dolls. Felt is a kind of soft fabric made from wool. The teacher said we could make small animals or characters. I decided to make a little cat. I had seen felt toys in stores but never thought I could make one ***1***.

First, we chose the colors of wool felt. I picked gray for the body and pink for the ears. We cut the felt into shapes according to the pattern. The teacher warned us to cut ***2*** so the edges would be neat. I had to cut two body shapes, four ear pieces, and a small tail. Then we sewed them together with a needle and thread. I am not good at sewing, so I worked very ***3***. The teacher came to help me when my stitches were too loose.

The most fun part was adding the details. We used small beads for the eyes and embroidered a mouth with red thread. I also added some whiskers. The cat began to look ***4*** and cute. I stuffed a little cotton inside to make it soft before sewing the last opening. Finally, I tied a small ribbon around its neck. My felt cat was ***5***!

I showed my creation to my family. My younger sister loved it so much that she asked me to make one for her too. I promised I would make a rabbit for her next time. Making the felt doll took me about three hours, but I enjoyed every ***6*** of it. The teacher said felt crafting required patience, but the result was always ***7***.

I learned that handmade toys have special value because they carry our time and love. I will keep practicing and try to make more ***8*** designs. Maybe I can give them as gifts to my friends on their birthdays. This craft has become one of my favorite ***9***. I hope to improve my skills and create even better works in the ***10***.

选项

1. A. yourself B. herself C. myself D. itself
