12-03 第1篇

中考英语完形填空：第一次参加英语配音比赛

完形填空原文

Last month, our school held an English dubbing competition. Students could choose a movie scene and dub it in English. I had never joined such a competition before, but my English teacher *1* me to give it a try.

I chose a scene from the movie "Finding Nemo" because I loved the story. In the scene, the father fish Marlin is looking for his son Nemo and meets a funny fish named Dory. I decided to play the role of Marlin. My partner Liu Wei played Dory. We had to match our voices with the *2* of the characters on screen.

We practiced every day after school for two weeks. At first, my pronunciation was not *3* enough, and I could not keep up with the speed of the dialogue. Liu Wei was much better than me because she watched English movies every weekend. She *4* helped me correct my pronunciation and taught me how to express different emotions with my voice.

On the day of the competition, I was very *5*. My hands were shaking when I held the microphone. But when the movie scene started playing, I forgot about my fear and focused on my lines. Liu Wei and I worked perfectly together. The *6* laughed at the funny parts and clapped when we finished.

We did not win first place, but we got the "Best Team Spirit" award. I was still very *7* because we had tried our best. The judge said our performance was natural and full of *8*.

This competition changed my attitude toward English. Before, I thought English was just about tests and grades. Now I know it can also be a way to have *9* and express myself. I plan to join more English activities in the future and keep *10* my speaking skills.

选项
