中考英语完形填空：学做热红酒苹果汁

完形填空原文

Last winter, my mother taught me how to make a warm drink called "hot spiced apple juice." It tastes a bit like mulled wine but has no ***1***. It's perfect for cold winter days. I was curious and wanted to learn.

First, we needed some ***2***: fresh apple juice, cinnamon sticks, cloves, orange slices, and a little honey. Mom went to the supermarket and bought everything we needed. When she came back, she ***3*** all the ingredients on the kitchen table.

"Now, watch carefully," Mom said. She poured the apple juice into a pot and turned on the stove. Then she added the cinnamon and cloves. "We must not ***4*** the heat too high," she warned. "Or the juice will lose its fresh taste." I nodded and remembered her words.

Soon the kitchen was filled with a wonderful ***5***. It smelled like Christmas! I could not help taking a deep breath. "Can I try it now?" I asked. Mom smiled and said we had to ***6*** for another five minutes. She wanted to make sure all the flavors mixed well.

When it was ready, Mom poured the hot juice into two beautiful cups. She added a slice of orange on top of each one. I took a small ***7*** and it was amazing! The drink was sweet, warm, and full of spice. I felt so warm inside.

From that day on, I often make this drink for my family when the weather gets cold. My younger brother loves it too. Making this special drink has become one of our favorite ***8*** to spend time together. I'm ***9*** that Mom took the time to teach me. It's not just a drink—it's a way to show ***10*** to the people we care about.
