中考英语完形填空：和家人一起整理年度相册

完形填空原文

During the winter vacation, my family decided to *1* our annual photo album. It was a special project that brought us all *2*.

Mom organized the photos by month. She said that putting them in *5* would help us remember our year better. I was responsible for writing short captions under each photo. At first, I found it *6*, but soon I discovered that those words could bring back so many warm memories.

While we worked together, we shared stories and *7*. Grandpa told us about his youth, and we learned more about our family history. The whole afternoon passed quickly, and we didn't even notice the time *8*.

When we finally finished, we had created a beautiful album that would be *9* for years to come. More importantly, we had spent quality time together as a family. That experience made me realize that the best *10* in life are not things we buy, but moments we share with the people we love.
