06-23 第二篇

Sun Protection: Why It Matters for Your Skin

The sun gives us light, warmth, and Vitamin D, but too much exposure can harm our skin. Ultraviolet（紫外线）, or UV, rays from the sun can cause sunburn, premature ageing, and even skin cancer. [1] In other words, enjoying the sun safely means understanding the risks and taking simple steps to protect ourselves. Whether you are at the beach, on a sports field, or just walking to school, sun protection should be part of your daily routine, especially in summer.

Sunscreen is one of the most effective ways to protect your skin. [2] Choose a sunscreen with an SPF of at least 30, which blocks most UVB rays. Apply it 15 to 30 minutes before going outside, and reapply every two hours or after swimming or sweating. Many people forget to put sunscreen on their ears, neck, and the backs of their hands—these areas get a lot of sun too. Sunscreen works best when used together with other steps, such as wearing a hat and staying in the shade during the strongest hours of the day, usually between 10 a.m. and 4 p.m.

Clothing and accessories also help block the sun. [3] Long-sleeved shirts, long trousers, and wide-brimmed hats can provide good protection. Dark or tightly woven fabrics block more UV rays than light, thin ones. Sunglasses that block both UVA and UVB rays protect your eyes and the delicate skin around them. Some clothes now carry a "UPF" (Ultraviolet Protection Factor) label—the higher the number, the better the protection. On hot days, choosing light-coloured, loose clothing can keep you cool while still offering some sun protection.

Children and teenagers need extra attention. [4] Young skin is more sensitive to UV damage, and sunburns in childhood can increase the risk of skin cancer later in life. Parents and schools can help by providing shade, encouraging the use of sunscreen, and teaching kids to stay out of the midday sun. Teens often spend more time outdoors for sports or activities—reminding them to apply sunscreen and wear protective clothing can become a healthy habit for life. Leading by example—when adults use sun protection, children are more likely to do the same.

[5] By using sunscreen, wearing the right clothes, and avoiding the strongest sun, you can enjoy outdoor activities while keeping your skin healthy for years to come. The next time you step outside on a sunny day, remember: a little protection goes a long way.

选项

A. In other words, enjoying the sun safely means understanding the risks and taking simple steps to protect ourselves. B. Choose a sunscreen with SPF 30 or higher, apply it

before going out, and reapply every two hours or after swimming. C. Long-sleeved shirts, wide-brimmed hats, and UV-blocking sunglasses can all help protect you from the sun. D. Young skin is more sensitive to UV damage, so children and teens need extra care and good role models. E. Sun protection is not complicated—a few simple habits can make a big difference. F. For example, some people believe that getting a tan makes them look healthier.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- **[1] A**：
  - **线索**：概括安全享受阳光的意义与日常防晒重要性。空前描述"Sun gives light, warmth, Vitamin D...too much exposure can harm skin...UV rays cause sunburn, premature ageing, skin cancer"，空后说明"Whether at beach, sports field, walking to school...sun protection should be part of daily routine, especially summer"。A选项"In other words, enjoying the sun safely means understanding the risks and taking simple steps to protect ourselves"（换言之，安全享受阳光意味着了解风险并采取简单措施保护自己）中"In other words"概括空前，"enjoying sun safely...understanding risks...simple steps to protect"与空后"sun protection...daily routine"精准呼应，衔接顺畅。
- **[2] B**：
  - **线索**：防晒霜的正确选择与使用方法。空前提出"Sunscreen is one of the most effective ways to protect your skin"，空后详述"Choose sunscreen with SPF at least 30...blocks most UVB...Apply 15—30 minutes before going outside...reapply every two hours or after swimming, sweating...many forget ears, neck, backs of hands...works best with hat, shade...strongest hours 10 a.m.—4 p.m."。B选项"Choose a sunscreen with SPF 30 or higher, apply it before going out, and reapply every two hours or after swimming"（选择 SPF 30 或更高的防晒霜，出门前涂抹，每两小时或游泳后补涂）中"SPF 30 or higher...apply before going out...reapply every two hours or after swimming"与空后内容完美对应，逻辑紧密。
- **[3] C**：
  - **线索**：衣物与配饰的物理防晒作用。空前提出"Clothing and accessories also help block the sun"，空后列举"Long-sleeved shirts, long trousers, wide-brimmed hats...good protection...Dark or tightly woven fabrics block more UV...Sunglasses block UVA and UVB...protect eyes, skin around them...UPF label...higher number better...light-coloured loose clothing...cool...some

protection"。C选项"Long-sleeved shirts, wide-brimmed hats, and UV-blocking sunglasses can all help protect you from the sun"（长袖衫、宽檐帽和防紫外线墨镜都有助于防晒）中"Long-sleeved shirts...wide-brimmed hats...UV-blocking sunglasses"与空后列举精准对应，衔接自然。

- [4] D：
  - **线索**：儿童与青少年的特殊防晒需求。空前提出"Children and teenagers need extra attention"，空后描述"Young skin more sensitive to UV damage...sunburns in childhood increase risk of skin cancer later...Parents, schools...provide shade, encourage sunscreen, teach stay out of midday sun...Teens...sports, activities...remind apply sunscreen, wear protective clothing...healthy habit for life...Leading by example...adults use protection, children more likely to do same"。D选项"Young skin is more sensitive to UV damage, so children and teens need extra care and good role models"（年轻肌肤对紫外线伤害更敏感，因此儿童和青少年需要额外呵护和良好示范）中"Young skin...sensitive...children and teens...extra care...role models"与空后内容完美对应，衔接得当。
- [5] E：
  - **线索**：全文收束与防晒习惯的总结。空[5]位于结尾段段首，空后为"By using sunscreen, wearing the right clothes, and avoiding the strongest sun, you can enjoy outdoor activities while keeping your skin healthy for years to come. The next time you step outside on a sunny day, remember: a little protection goes a long way."。E选项"Sun protection is not complicated—a few simple habits can make a big difference"（防晒并不复杂——几个简单的习惯就能带来很大不同）用"not complicated...few simple habits...big difference"总结前文，"simple habits"与空后"sunscreen, right clothes, avoiding strongest sun"形成呼应，收束精准。
- **干扰项分析**：
  - **F. For example, some people believe that getting a tan makes them look healthier.**：涉及有人认为晒黑看起来更健康，易被误填[1]。但F以"For example"引出错误观念（晒黑=健康），而空[1]讨论的是正确认识（了解风险、采取保护），F的"tan...look healthier"与"understanding risks...protect ourselves"的论述方向相反；且F属误解型内容，与全文倡导科学防晒的基调不符。F属"主题相关但论述方向相反"型干扰。
