08-20 第二篇

How to Be a Good Listener

Listening is more than just hearing words. It is about understanding the person speaking, noticing their feelings, and showing that you care. [1] Good listeners make others feel valued and respected, which strengthens friendships and builds trust. In school, at home, or with friends, the ability to listen well is a skill that will benefit you everywhere.

The first step is to give your full attention. Put away your phone, stop thinking about what you will say next, and focus on the speaker. [2] Making eye contact and nodding occasionally shows that you are following along. When you are fully present, the speaker feels that their words matter. Distractions send the message that something else is more important than they are.

Try to understand before responding. Do not interrupt or jump in with advice too quickly. [3] Sometimes people need to express their feelings before they want solutions. Ask questions like "How did that make you feel?" or "What happened next?" to show interest and encourage them to share more. Your role is to support, not necessarily to fix.

Pay attention to what is not said. Body language, tone of voice, and pauses often tell us as much as words. [4] A person might say "I'm fine" but look upset; their behavior can reveal what they really feel. Learning to read these signals helps you respond in a more caring and appropriate way. Listening with your eyes and heart, not just your ears, makes a real difference.

Becoming a good listener takes practice. [5] Start with one conversation today: put down your phone, listen without judging, and see how it feels. The more you practice, the more natural it becomes. Good listening can transform your relationships and help you understand the people around you more deeply. It is a gift you can give to everyone you meet.

选项

A. That is why listening is often called an art that we can all learn and improve. B. Your body language sends signals too, and the speaker notices whether you are engaged. C. Giving them space to talk often helps them figure out the answer for themselves. D. Noticing these details shows that you are truly paying attention to the whole person. E. Start small, and over time you will find that listening becomes second nature. F. For example, when someone is angry, they might speak faster or cross their arms.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- **[1] A**：
  - **线索**：空前将倾听界定为理解、关注感受、表达关心，空后强调"好听众让他人感到被重视和尊重"。选项 A"这就是为什么倾听常被称为我们可以学习和提升的艺术"承接倾听的定义，将其定位为可习得的技能，与后文"在学校、家庭、朋友中处处有用"形成呼应。
- **[2] B**：
  - **线索**：空前建议"全神贯注、放下手机、专注说话者"，空后说"眼神接触和点头显示你在跟上"。选项 B"你的肢体语言也在传递信号，说话者会注意到你是否投入"与前文"全神贯注"呼应，解释"眼神接触、点头"的意义，与后文" fully present 让说话者感到被重视"形成逻辑链。
- **[3] C**：
  - **线索**：空前建议"先理解再回应、不打断、不急于给建议"，空后提到"有时人们需要先表达感受再谈解决办法"。选项 C"给他们表达空间，往往能帮助他们自己找到答案"与前文"不急于给建议"一致，与后文"你的角色是支持而非一定要解决"完美契合。
- **[4] D**：
  - **线索**：空前指出肢体语言、语气、停顿与言语同样重要，空后举例"说 I'm fine 却显得难过"。选项 D"注意到这些细节表明你在真正关注整个人"与前文"未说出的内容"呼应，与后文"用心聆听、而非仅用耳"形成升华。
- **[5] E**：
  - **线索**：空前说"成为好听众需要练习"，空后给出"从今天的一段对话开始"等具体建议。选项 E"从小做起，久而久之你会发现倾听变得自然而然"与前文"takes practice"呼应，与后文"越练习越自然"形成递进，收束全文。
- **干扰项分析**：
  - **F. For example, when someone is angry, they might speak faster or cross their arms**：以 For example 开头的典型干扰项。与第四段"肢体语言、语气"相关，易被误选为 [4]。但 F 是单一情绪状态的举例，而 [4] 处需要的是对"关注非言语信号"的概括；且 F 的"angry"例子过于具体，与"关注整个人、用心聆听"的主旨层次不同，属举例型干扰。
