中考英语完形填空 – 篇章1：助人与成长

完形填空原文

Tony was a quiet boy who just moved from a small town to a big city. He didn't know how to make friends in his new class. During breaks, he always sat alone, reading a book.

One day, his math teacher, Mrs. Smith, noticed him. She came to his desk and asked him a favor. She wanted Tony to help a younger student, Lily, with her math. Tony ***1*** at first. He thought he wasn't smart enough to teach others, let alone talking to a stranger. But his teacher ***2*** him to try. "You got a perfect score in the last test. You are better at math than you think," she said with a warm smile.

Tony started to help Lily every Tuesday afternoon. In the beginning, Lily made a lot of ***3***. She could not figure out the numbers at all. However, Tony was very patient. He drew pictures and used simple ways to ***4*** the difficult math problems to her. Slowly, Lily began to understand and her math grades ***5*** a lot.

Seeing her progress, Tony felt extremely ***6***. He realized that he could do something useful and meaningful. More importantly, he found that talking to Lily helped him become more ***7***. He was not afraid to speak anymore. Other classmates also noticed his change. They sometimes came to ask him questions and started to play with him.

After a couple of months, Tony had many new ***8***. He learned an important life lesson: When you ***9*** others, you are actually helping yourself. He was no longer that quiet boy. Now, he always walks into the classroom with a big ***10*** on his face.
