中考英语完形填空：漫画书里的梦想

完形填空原文

When I was in Grade 7, I found an old comic book in my father's drawer. The cover was torn, but the drawings inside were still ***1***. It was a story about a young artist who never gave up on his dream.

The main character, a boy named Xiao Ming, loved drawing. His parents wanted him to focus on ***2*** instead. "Art won't help you get a good job," they said. But Xiao Ming kept drawing in secret. He practiced every night by the light of a small lamp.

One day, a famous artist visited his school. He saw Xiao Ming's drawings and said, "You have a real ***3***. Don't let anyone tell you to stop." Those words changed Xiao Ming's life. He worked even harder and later became a successful illustrator.

I closed the comic book and looked at my own drawings on the wall. I had always loved art but was ***4*** to tell my parents. That night, I made a decision. I would follow my dream, just like Xiao Ming did.

I started to draw more seriously. I joined the school art club and entered a painting competition. I didn't ***5*** the first time, but I didn't give up. My art teacher said, "Every artist fails before they succeed. The important thing is to keep trying."

A year later, I won a prize in a city-wide competition. When I showed the ***6*** to my parents, they were surprised. "We didn't know you were so good," my mother said. "We're sorry we didn't support you earlier." From then on, they encouraged me to draw.

That old comic book is still on my shelf. Whenever I feel ***7***, I read it again. It reminds me that dreams are worth fighting for. Some people might not understand your passion at first, but if you believe in yourself and keep working, you can ***8*** your goals.

The comic was just a story, but it gave me courage to write my own. Everyone has a dream ***9*** inside them. Sometimes we need a little push to let it out. For me, that push came from a torn book in my father's drawer. I wonder if he ***10*** that it would inspire me one day.
