中考英语完形填空：值日生的扫帚

完形填空原文

Every week, our class has a duty group to clean the classroom. Last month, it was my turn to be the duty leader. Every afternoon after school, I had to get the broom from the corner and sweep the floor. At first, I thought it was a ***1*** job. I just wanted to finish it quickly and go home. But one day, something changed my mind.

That day, our head teacher stood by the door and watched us clean. When I finished sweeping, she came over and said, "You did a good job. The floor looks ***2*** now." Her words made me feel proud. From then on, I began to ***3*** the duty work. I not only swept the floor clean but also helped my classmates put the chairs in order. We became a good team and finished the cleaning ***4***.

Through the duty work, I learned that every job is important. The broom in my hand may look simple, but it helps keep our classroom tidy. A clean classroom makes us feel comfortable and helps us study better. I also learned to work with others. When we ***5*** the work together, everyone feels happy. Now I am no longer ***6*** about being a duty student. Instead, I feel it is my responsibility to do it well.

My parents often tell me that small things can make a big ***7***. I think the broom in the corner is a good example. It reminds me that we should not look down upon any job. Every role in our class has its own ***8***. Whether we are cleaning the floor or writing on the blackboard, we are all helping to make our class better. I am ***9*** that I had the chance to learn this lesson. The broom has taught me more than how to sweep—it has taught me about responsibility and ***10***.
