中考英语完形填空：做志愿者清理海滩

完形填空原文

Last Sunday, I joined a volunteer activity to clean up the beach. More than fifty students from different schools ***1*** together. We wore gloves and carried big bags for the rubbish. Our task was to make the beach clean and safe for everyone.

When I first arrived, I could not believe what I saw. There were plastic bottles, food bags, and even old shoes ***2*** in the sand. Some rubbish had been there for a long time and was hard to pick up. I felt a bit sad that people had left so much waste behind.

We worked in small groups. My friend and I walked slowly along the beach, picking up everything we could find. We filled our bags quickly. The sun was hot, and we were ***3***, but nobody complained. We all knew we were doing something meaningful.

After three hours of work, the beach looked much ***4***. We had collected over two hundred bags of rubbish. A volunteer leader gave us a short talk. She said that plastic in the sea can ***5*** fish and birds. "Every piece you picked up today might have saved an animal's life," she told us.

I learned that we should never ***6*** rubbish anywhere. We must put it in the bin. Small actions can make a big difference. If everyone does their part, our planet will become a ***7*** place to live.

On the way home, I felt tired but happy. I had spent my Sunday doing something useful. I want to join more ***8*** activities in the future. Maybe I can encourage my family and friends to care more about the ***9***. Together we can protect our Earth.

That day on the beach was one of the most ***10*** experiences of my life. I will never forget it.
