07-29 第2篇

# 中考英语完形填空：去动物园

## 完形填空原文

Last Sunday, my family went to the city zoo. It was my little sister's birthday and she had always wanted to see real animals. We arrived early in the morning to avoid the crowds.

The first place we visited was the monkey house. The monkeys were very active. They jumped from one branch to another and made funny faces at the visitors. My sister ***1*** so hard that she could not stop. She said the monkeys looked like her cousins when they played. We all laughed.

Then we went to see the elephants. They were much ***2*** than I had imagined. One elephant was eating hay with its long trunk. A zookeeper stood nearby and told us that elephants can remember things for many years. "They are very smart animals," he said. I was surprised by how gentle they seemed.

We also saw lions, tigers, and bears. They were kept in large areas that looked like their natural ***3***. My father explained that modern zoos try to give animals a comfortable home. "Zoos help protect animals and teach people about them," he said. I thought that was a good ***4***.

At noon, we had lunch at a restaurant inside the zoo. After that, we went to the bird garden. There were many colorful birds — parrots, peacocks, and some I had never ***5*** before. One parrot could even say "hello"! My sister tried to talk to it and it answered. She was so happy.

Before we left, we visited the gift shop. My sister chose a stuffed panda as her birthday present. I bought a book about animal protection. I wanted to ***6*** more about how we can help protect wildlife.

That day at the zoo was wonderful. I learned that animals are not so different from us — they have families, they play, and they need care. We should ***7*** them and their home. Every animal has the right to live in peace.

I hope to visit the zoo again soon. Maybe next time we can see the new baby pandas that were born last month. My sister has already ***8*** that she wants to go back for her next birthday too. I think that is a great idea.

If you have a chance to visit a zoo, take the time to read the information about each animal. You will learn a lot. And remember: we share this planet with many other ***9***. It is

our responsibility to treat them with kindness and respect. A trip to the zoo can be more than fun — it can be a lesson in ***10*** and love for all living things.

## 选项
