08-09 第1篇

中考英语完形填空：班级植物角

完形填空原文

Our class decided to create a plant corner near the window. Everyone was excited about the idea. We wanted to make our classroom more lively and *1*. So we brought different kinds of plants from home.

Li Ming brought a small cactus. He said it didn't need much water and was easy to *2*. Wang Fang brought a pot of green beans that she had grown from seeds. Zhang Wei brought a spider plant that his grandmother had given him. I brought a jade plant that my mother helped me choose at the flower market.

We placed all the plants on a wooden shelf by the window. Each plant had a small *3* with its name and who was taking care of it. We took turns watering the plants every week. We also learned to remove dead leaves and check if the soil was dry.

At first, I was a bit *4*. I had never taken care of plants before. Would I water them too much or too little? My teacher said, "Just observe them. If the leaves look yellow, you might be watering too much. If they look wilted, they might need more water." I started paying more attention to the plants, and soon I could tell when they needed care.

One morning, we found that Wang Fang's bean plant had grown a white flower. We were all *5*! She had nurtured it from a tiny seed, and now it was blooming. It made us realise that with patience and care, small things can grow into something beautiful.

The plant corner became our favourite *6* in the classroom. During breaks, we would gather around to watch the plants grow. Sometimes we even talked to them, which might sound funny, but we believed it helped them grow better!

Our teacher said the plant corner taught us responsibility. We had to remember to water, to observe, and to *7* when something was wrong. These skills would be useful in our daily lives too.

Now our classroom feels more like a small garden. The plants bring us *8* and remind us of the beauty of nature. I am proud of our class plant corner, and I will *9* to take good care of my jade plant. Maybe one day it will *10* into a bigger, stronger plant, just like us growing up.

选项

1. A. noisy B. bright C. crowded D. empty
2. A. buy B. find C. choose D. care for
3. A. book B. sign C. picture D. gift
4. A. confident B. worried C. bored D. angry
