09-16 第2篇

中考英语完形填空：校园跳蚤市场

完形填空原文

Our school held a flea market last Friday afternoon. The activity aimed to teach us about recycling and the *1* of saving money. Each class set up a stall in the playground.

My classmates and I brought things we no longer needed: books, toys, stationery and some clothes. We *2* them neatly on our table and wrote price tags. I was responsible for selling, so I had to talk to customers and explain the *3* of our items.

At first, few people came to our stall. I felt a little *4*. Then I had an idea — I held up a sign that said "Buy one get one free for books!" Soon, more students came over. A girl bought three storybooks and said she would *5* them with her younger sister. I was glad that our books would have a new home.

The atmosphere became livelier. Students were walking around, *6* for good deals. Some were bargaining politely. Our teacher walked by and said we had done a good job. She also bought a small plant pot from us. By the end of the afternoon, we had *7* almost all our items. We felt very satisfied.

The money we earned would be donated to a charity that helps poor children. Knowing that our small efforts could *8* others made us feel meaningful. This flea market was not just about buying and selling — it was about sharing, caring and making a *9*.

I hope our school will hold more such activities. They help us learn practical skills and understand that we can contribute to society even as students. Everyone has something to *10*, and every little bit counts.
