中考英语完形填空：拍毕业照

完形填空原文

It was a sunny morning in June. Our class was going to take our graduation photos — the last group photo we would take as junior high school students. We had been looking *1* to this day for a long time.

In the morning, we put on our white shirts and dark blue uniforms. The girls fixed their hair and the boys made sure their collars were straight. We wanted to look our *2* for this special moment.

The photographer had set up his equipment on the playground. He asked us to stand in rows according to our *3*. The taller students stood at the back and the shorter ones at the front. I stood in the third row, right next to my best friend.

"Everyone, smile! Say cheese!" the photographer shouted. We all smiled widely. But then someone made a funny face and we all *4* laughing. The photographer had to ask us to be serious. We tried again, and this time we managed to keep serious faces — though it was really difficult!

After the formal photo, we had some free time for casual photos. We took photos with our favourite teachers, with our close friends, and with our class flag. The atmosphere was full of *5* and a little sadness. We knew that soon we would go to different high schools and might not see each other so often.

Our headteacher made a short speech. She said that these three years had been the most *6* time of her teaching career. She encouraged us to work hard in high school and to never forget our roots. Many of us had *7* in our eyes when she finished.

When I look at that graduation photo now, I can see every face — the ones I studied with, the ones I laughed with, and the ones I grew up with. That photo *8* our friendship and our youth forever. It reminds me that no matter where we go, we will always be part of this big family.

I will *9* this photo carefully. It is not just a picture — it is a treasure that holds our best memories of junior high school. Years from now, when I look at it again, I will still remember the sunshine, the smiles, and the *10* we shared on that special day.
