09-28 第1篇

中考英语完形填空：学校文艺汇演

完形填空原文

Last Friday, our school held an art performance to celebrate the upcoming National Day. The performance took place in the school hall. Students from different grades had *1* for weeks to show their talents.

I was part of our class's dance group. We had chosen a traditional Chinese dance. At first, some of us found the moves difficult. We often stepped on each other's feet and forgot the *2*. But we never gave up. We practised after class every day. Our teacher, Miss Liu, encouraged us and said that *3* would bring success.

On the day of the performance, I felt very nervous. My heart was beating fast when we waited backstage. "Take a deep breath. You've prepared well. Just do your *4*," my friend Xiaoming said. His words helped me calm down.

When our turn came, we walked onto the stage. The lights were bright and the audience was watching quietly. The music started and we began to dance. To my surprise, everything went *5*. We remembered every move and danced in perfect harmony. When we finished, the audience clapped loudly. I felt so proud and happy.

There were many other wonderful performances too. Some students sang popular songs, others performed magic tricks. The most impressive one was a group of students who played traditional Chinese instruments. Their *6* was so beautiful that everyone listened in silence.

The principal gave a speech at the end. He said that the arts were an important part of education. Learning to perform could help us build *7* and teamwork. He encouraged us to develop our hobbies and discover our talents.

The art performance was a great success. It not only brought us joy but also helped us understand the *8* of art. I learned that hard work pays off and that performing in front of others can be a wonderful experience. I'm already looking forward to the next school *9*. Maybe I'll try something new — perhaps singing or playing an instrument. The stage is a place where we can *10* ourselves and share our joy with others.

选项
