09-30 第2篇

中考英语完形填空：九月总结与展望

完形填空原文

September has come to an end. It is the last day of the month, and I am sitting at my desk, thinking about what I have experienced and learned during the past four weeks.

September was a busy and *1* month for me. School started at the beginning of the month. I met my new classmates and teachers. At first, I felt a little nervous because everything was new. But soon I made friends and began to enjoy school life again. I joined the English club and the basketball team. Both have brought me a lot of *2*.

In terms of study, I made some progress. My maths improved a bit, thanks to my teacher's patient explanations. However, I still need to work harder on English. I sometimes forget new vocabulary and make grammar *3*. I have decided to spend more time reading English every day from October. "Practice makes perfect," as the saying goes.

I also took part in several meaningful activities. I visited the elderly in the community, helped my mother tidy up at home, and took part in the school art performance. These experiences taught me the *4* of helping others and staying active. I learned that life is not only about exams and grades — it is also about being a good person and *5* to the community.

Looking back at September, I have both successes and regrets. I am proud that I tried new things and didn't give up when things were difficult. But I also *6* that I wasted some time on games and social media. I could have used that time for reading or exercise.

Looking forward to October, I have set some goals. First, I want to improve my English by reading at least one short passage every day. Second, I want to keep *7* basketball to stay healthy. Third, I want to help at least one person each week, whether it is a classmate, a family member, or a stranger. Small acts of kindness can make a big *8*.

September is over, but a new month is beginning. I hope that in October I can do better and become a *9* version of myself. Every day is a new chance to learn and grow. I will try my best to make the most of *10*.
