中考英语完形填空：班级合唱团排练

完形填空原文

Our school would hold a choir competition in one month. Our class decided to take part in it. Every Tuesday and Thursday after school, we went to the hall to *1*. At first, it was not easy. Some of us sang too loudly while others sang too *2*. Our voices didn't sound good together.

Mr. Wang, our music teacher, told us that a choir was like a team. "Everyone must *3* to the same rhythm," he said. "Listen to each other, not just yourself." We practiced the song many times. Little by little, we began to sing in *4*. It was wonderful to hear our voices blend together.

One girl named Lily had a very sweet voice. She often sang the solo part. The rest of us sang the chorus. We had to remember when to come in and when to *5*. Sometimes we made mistakes and had to start again. But no one complained. We all knew that practice makes *6*.

The day before the competition, we had a final rehearsal. We wore our white shirts and dark trousers, just like the real performance. Mr. Wang said we were *7* than before. "Have confidence in yourselves," he encouraged us. "You've worked so hard. Just enjoy the *8* on stage."

When the competition day came, we stood on the stage and sang our hearts out. The audience clapped loudly when we finished. We didn't win first place, but we were still very *9*. We had learned to work as one and to support each other. That was the real *10* of being in a choir. I will always remember those rehearsal days with my classmates.
