中考英语完形填空：参加校园消防安全演练

完形填空原文

Last Tuesday, our school held a fire safety drill. It was the first time I had taken part in such a *1*, so I felt both nervous and excited.

Before the drill began, our teacher explained the *2* to us. She told us to cover our mouths with wet towels and walk quickly to the playground. She also reminded us not to *3* back to take anything from our desks. Safety always comes first.

When the alarm rang, everyone stood up and moved towards the door *4*. Some students were a little scared, but we helped each other. I held my friend's hand and we went downstairs together. It was important to stay *5* and follow the teacher's instructions.

We arrived at the playground in less than three minutes. The headmaster said we did a *6* job. Then a fireman came and showed us how to use a fire extinguisher. He said that knowing how to *7* ourselves in a fire is very important.

After the drill, we went back to our classroom. Our teacher asked us to *8* what we had learned today. I wrote in my notebook that I should always know where the nearest exit is. I also learned that we should never use the lift during a fire.

This drill taught me a lot. I used to think fire drills were not *9*. Now I understand they can save our lives. I hope everyone takes fire safety *10*.
