11-06 第1篇

中考英语完形填空：参加学校跳绳比赛

完形填空原文

Our school held a rope-jumping competition last Wednesday. Every class had to send five students to *1* in the event. I was one of them.

I had been practicing for two weeks before the competition. At first, I could only jump about fifty times without *2*. But after daily practice, I improved a lot and could jump over one hundred and fifty times.

On the day of the competition, the playground was full of *3*. Students from different classes were warming up. Some were already jumping very fast. I felt a little pressure, but my friends encouraged me and said, "Just do your *4*."

When it was my turn, I took a deep breath and started jumping. I tried to keep a *5* rhythm and not rush. The rope swung smoothly around me. I could hear my classmates counting for me: "...eighty-one, eighty-two..."

Suddenly, my foot caught the rope and I *6*. I quickly picked up the rope and continued. My teacher had told me that stopping for too long would *7* more time. So I jumped as fast as I could until the whistle blew.

In the end, I jumped one hundred and thirty-two times. It wasn't my best *8*, but I was still happy because I didn't give up after the mistake. Our class got third place overall, and we received a certificate.

After the competition, our PE teacher said that rope jumping is one of the *9* exercises for our health. It helps build strong legs and improves coordination. I decided to keep practicing every day, not just for competitions, but for my own *10*.

选项

1. A. hide B. compete C. study D. rest
