11–13 第2篇

# 中考英语完形填空：学做水果拼盘

## 完形填空原文

Last weekend, Mom said we would have some guests for dinner. She asked if I could help make a fruit platter. I had never made one before, but I was ***1*** to learn.

Mom took me to the fruit market. We bought apples, oranges, grapes, strawberries, and a small watermelon. The colorful fruits looked so ***2*** that I couldn't wait to start.

Back home, Mom showed me how to wash and dry each fruit first. "Clean hands and clean fruits are very ***3***," she said. Then we cut the watermelon into small triangles and arranged them around the edge of a large plate. This would be the ***4*** of our design.

Next, I peeled the oranges and divided them into segments. I placed them in a circle in the middle. The strawberries were already clean, so I just cut off their green tops and put them ***5*** the oranges and the watermelon. The red strawberries made the platter look much more beautiful.

I was careful not to ***6*** the fruits too close together. Mom said leaving a little space between them made the platter look more professional. I added some grapes here and there for a final touch.

When I finished, the platter looked like a colorful work of art. Mom took a photo of it and said she was ***7*** of me. The guests loved it too. They said it was both delicious and beautiful.

Making the fruit platter taught me that cooking is not just about taste—it's also about making food look ***8***. A little creativity can turn ordinary things into something ***9***. I will try to make more fruit platters in the future and maybe ***10*** some new designs of my own.

## 选项

1. A. afraid B. tired C. willing D. angry
2. A. expensive B. fresh C. heavy D. cheap
3. A. difficult B. important C. strange D. useless
4. A. center B. base C. top D. side
5. A. under B. beside C. above D. between
