11-23 第1篇

中考英语完形填空：参加学校心理健康主题活动

完形填空原文

Last Thursday, our school held a Mental Health Day with various activities. The theme was "Care for Yourself, Care for Others." I joined the event with my classmates. We all thought it was important to learn how to ***1*** stress and stay positive.

In the morning, we attended a lecture in the school hall. A psychologist from the city hospital came to talk to us. She said that feeling stressed before exams was normal. The key was to find healthy ways to ***2*** with it. She suggested taking short walks, listening to music, or talking to friends. She also reminded us that getting enough sleep was ***3***. Many students nodded and wrote down her tips.

After the lecture, we took part in group activities on the playground. One activity was a "compliment circle." We stood in a circle and each person had to say something ***4*** about the person on their right. At first, I felt a little shy, but when I received my compliment, I smiled. It felt good to both give and receive kind words. We also did some relaxing exercises. The teacher asked us to close our eyes, take deep breaths, and imagine ourselves in a ***5*** place like a beach or a forest.

In the afternoon, we wrote our worries on small cards and put them into a "worry box." The teacher said we did not have to ***6*** everything in our hearts. Sharing could make us feel lighter. I wrote about my fear of the coming math test. After writing it down, I somehow felt a bit ***7***.

That day I learned that taking care of our mental health is as important as taking care of our bodies. We should not be afraid to ask for ***8*** when we need it. Our school will hold such activities every term. I am looking forward to the next one and will encourage more friends to ***9***. We should all learn to treat ourselves ***10*** and be kind to our minds.

选项
