中考英语完形填空：第一次参加校外研学旅行

完形填空原文

Last month, our class went on a study trip to a science museum in another city. It was my first time joining an off-campus educational tour. I was both excited and a little ***1***. We had to get up very early and take a bus for two hours to get there.

When we arrived, the museum guide welcomed us and gave us a brief ***2*** of the museum. She said we would visit four halls—Space, Ocean, Technology, and Future. Each hall had interactive exhibits. We could touch the screens, push buttons, and even experience a simulated earthquake. It was much more ***3*** than just reading from books.

My favorite part was the Space Hall. I put on a VR headset and "walked" on the surface of the moon. It felt so real that I could ***4*** believe it was not true. I also saw a huge model of the solar system. The planets moved slowly around the sun. The guide explained the distance between the Earth and the sun. The numbers were so large that they were ***5*** to imagine.

At noon, we had lunch in the museum cafeteria. The teacher reminded us to stay in groups and not to ***6*** away from the team. After lunch, we had free time to explore. I bought some postcards and a small robot toy at the gift shop as souvenirs. I would give the postcards to my parents and ***7*** the robot for my younger brother.

On the way back, we shared our experiences on the bus. Everyone agreed that it was a memorable trip. We had learned so much outside the classroom. The teacher said our school would organize more study trips in the ***8***. I cannot wait for the next one. This trip made me realize that learning can happen ___9___—not only in the classroom but also in the world around us. All of ***10*** felt grateful for this wonderful experience.
