12-31 第2篇

中考英语完形填空：学做新年蛋糕

完形填空原文

New Year's Eve is a special day. This year, I decided to learn how to make a New Year cake with my mother. She said it would bring good luck for the coming year.

The first *1* was to gather all the ingredients. We needed flour, eggs, sugar, milk, and some butter. Mom showed me how to mix them in the correct *2*. "Start with the flour and eggs, then add the rest," she said. I followed her instructions carefully.

Next, we poured the mixture into a cake pan and put it in the oven. Mom set the temperature and told me we had to *3* for about forty minutes. I sat nearby and watched through the oven door. The kitchen slowly filled with a *4* smell. I could not wait to taste it.

When the cake was ready, Mom took it out and let it cool. Then we decorated it together with cream and fruit. I wrote "Happy New Year" on top with red frosting. It looked *5*! Mom took a photo and said she would send it to our family group chat.

We cut the cake and shared it with our family. Everyone said it was delicious. I felt *6* of what I had made. Making the cake was not just about cooking — it was about spending *7* time with Mom and learning something new.

From that day on, I want to learn more *8* from my mother. I hope to make a New Year cake again next year, and maybe try other dishes too. Cooking can bring *9* to our family, and I want to be a part of that. The New Year cake has become a special *10* for me.

选项

1. A. step B. day C. problem D. idea
