内容包括：

1. 列举科技给日常生活带来的便利（至少两方面）
2. 谈谈科技可能带来的问题
3. 你对合理使用科技的建议

注意：

- 词数 80—100 词左右
- 文中不得出现真实姓名和校名
- 观点明确，条理清晰

题目信息

- 题型：情境作文（英语角发言稿）
- 建议字数：80—100 词
- 推荐人称：第一人称（I / we）
- 推荐时态：一般现在时为主
- 必写要点：①科技的便利 ②可能的问题 ③合理使用建议

写作思考

1. 审题

这是一篇辩证性话题作文，需要正反两面讨论科技的影响，最后给出自己的建议。

需要明确以下信息：

- **写给谁：** 英语角的同学们
- **写什么：** 便利 + 问题 + 建议
- **人称：** I / we
- **时态：** 一般现在时
- **格式：** 发言稿

2. 结构安排

段落	内容	建议句数
开头段	引出话题 + 科技的便利	3—4 句
正文段	科技的问题	3—4 句
结尾段	合理使用建议	2—3 句

3. 表达准备

要点一：科技的便利

- 中文想法：科技让我们的生活更方便了。我们可以用手机在线学习、和远方的朋友视频通话。共享单车和导航软件让出行变得更加容易
- 英文表达：`Technology has made our life much more convenient. We can study online and video-call friends far away with our phones. Shared bikes and navigation apps make traveling easier than ever.`

要点二：可能的问题

- 中文想法：但科技也有负面影响。很多同学沉迷手机游戏，视力下降，和家人交流也变少了
- 英文表达：`However, technology also brings problems. Many students are addicted to mobile games, which hurts their eyesight and reduces face-to-face communication with family.`

要点三：合理使用建议

- 中文想法：我认为科技本身没有好坏之分，关键在于我们怎么使用它。我们应该利用科技来学习和成长，而不是让它控制我们
- 英文表达：`I believe technology itself is neither good nor bad. The key is how we use it. We should use it to learn and grow, instead of letting it control us.`

4. 可加分的亮点

- 用 **`make our life much more convenient`** 表达"让生活更便利"
- 用 **`be addicted to`** 表示"沉迷于"
- 用 **`neither good nor bad`** 辩证表达
- 用 **`instead of letting it control us`** 作点睛之笔

参考范文

Hello, everyone! Today I'd like to share my thoughts on how technology changes our life.

There is no doubt that technology has brought us great convenience. With smartphones, we can learn new things through online courses anytime, anywhere. We can also keep in touch with friends thousands of miles away through video calls. Besides, smart devices

like shared bikes and map apps have made getting around much easier. Technology truly makes the impossible possible.

However, every coin has two sides. Some students spend too much time on short videos and mobile games, which not only harms their eyesight but also takes away precious time for study and exercise. Worse still, some people become so dependent on technology that they forget how to enjoy a simple conversation over dinner.

In my opinion, technology is a powerful tool, but we are the ones who decide how to use it. Set a daily screen time limit. Put down your phone during meals. Use technology to open doors, not to build walls.

Let's be the master of technology, not its slave.

（全文约 170 词）

全文翻译

大家好！今天我想分享一下科技如何改变我们生活的想法。

毫无疑问，科技给我们带来了极大的便利。有了智能手机，我们可以随时随地通过在线课程学习新知识。我们也可以通过视频通话和千里之外的朋友保持联系。此外，共享单车和地图软件等智能设备让出行变得更加便捷。科技真的让不可能变成了可能。

然而，凡事都有两面。有些同学在短视频和手机游戏上花费了太多时间，这不仅损害了视力，还占用了学习和锻炼的宝贵时间。更糟的是，有些人变得如此依赖科技，以至于忘记了如何在饭桌上好好聊天。

在我看来，科技是一个强大的工具，但决定如何使用它的是我们自己。给自己设定每日屏幕时间限制，吃饭时放下手机，用科技来打开大门而不是建造围墙。

让我们做科技的主人，而不是它的奴隶。

可继续补充

好词好句

易错点提醒

1. **`There is no doubt that + 从句：`** that 引导同位语从句
    - ✅ There is no doubt that technology has changed our life.
    - ❌ There is no doubt technology changed our life.（加 that 更规范）
2. **`keep in touch with sb.：`** 注意介词搭配
    - ✅ We keep in touch with friends through video calls.
    - ❌ We keep in touch friends through video calls.（缺少 with）
3. **`not only...but also...` 就近原则：** 动词形式与最近的主语一致
    - ✅ Not only he but also his friends like technology.
    - 但初中阶段更多用于连接两个并列的动词短语或名词短语
4. **`spend time on sth. / spend time doing sth.：`** 两种搭配都行
    - ✅ They spend too much time on games.

- ✅ They spend too much time playing games.
- ❌ They spend too much time to play games.

5. **`so...that...` 结构：** so 后接形容词或副词
    - ✅ They become so dependent on technology that...
    - ❌ They become so depend on technology that...（dependent 是形容词）

升格建议

- 开头可以用一个**生活场景切入**。比如 `Imagine waking up one morning and finding that the Internet has disappeared. No online classes, no social media, no food delivery. Scary, isn't it?`
- 正文可以加入**数据**增强说服力。比如 `According to a survey, the average teenager spends over three hours a day on their phone`。
- 结尾可以用 **`Technology should be a window that helps us see the wider world, not a cage that traps us in a small screen`** 做更有诗意的比喻收束。
