参考范文

Good morning, everyone! Today I'd like to talk about healthy living.

As we all know, health is the greatest wealth in life. Without good health, we cannot study well, enjoy life, or achieve our dreams. So it is very important for us to stay healthy.

How can we keep healthy? First, we should eat a balanced diet. Eat more fruit and vegetables, and less junk food. Second, exercise regularly. Running, swimming, or even taking a walk every day can make a big difference. Third, make sure to get at least eight hours of sleep every night — our bodies need enough rest to stay strong. Last but not least, keep a positive attitude. A happy mind leads to a healthy body.

Dear friends, good health doesn't come by accident — it comes from good habits. Let's start from today, eat well, move more, sleep early, and smile often. A healthy life is waiting for us!

Thank you for listening!
