How to Stay Healthy

Keeping healthy is very important for us. There are many ways to do it. First, we should eat a balanced diet with more vegetables and fruit, and try to eat less junk food. Second, it's necessary to do exercise regularly, such as running, swimming, or playing basketball. Besides, we need to get enough sleep and avoid staying up late, because good rest helps our body and mind work better.

As for me, I try to follow these rules. I eat lots of vegetables and fruit every day and seldom have fast food. I also run for about half an hour after school. What's more, I go to bed before 10 o'clock and get up early in the morning. I feel energetic and happy every day.

I hope all of you can take good care of yourselves. Let's stay healthy together and enjoy our school life!
