08-07 中考英语语法填空 练习二

主题：节约用电 (Saving Electricity)

一、题目

阅读下面短文，在空白处填入一个适当的单词，或填入括号中所给单词的正确形式。

Electricity is something we use every day, but we rarely think about where it comes (1) _____. In China, most electricity is still generated (2) _____ burning coal, which produces harmful gases and contributes to climate change. Saving electricity is therefore one of the (3) _____ (easy) ways for ordinary people to help the environment. There are many small things we can do. For example, turn off lights when (4) _____ (leave) a room, and unplug chargers that are not (5) _____ being used. Choosing energy-efficient appliances can also make a big difference. A LED light bulb uses 75 percent (6) _____ (little) electricity than a traditional one and lasts much (7) _____ (long). My family recently replaced all our old bulbs with LED ones, and our electricity bill (8) _____ (drop) noticeably. We also try to use the air conditioner less often by opening windows (9) _____ (instead). On cool evenings, a natural breeze is more (10) _____ (comfort) than cold air from a machine. Every unit of electricity saved is a step towards a cleaner planet.

二、答案与解析

1. **答案：from**
   - **考点**：介词。`come from` 为固定搭配，表示"来自"。
2. **答案：by**
   - **考点**：介词。`by burning coal` 表示"通过燃煤"，`by + doing` 表示方式。
3. **答案：easiest**
   - **考点**：形容词最高级。`one of the + 最高级 + 复数名词`。
4. **答案：leaving**
   - **考点**：现在分词/省略结构。`when leaving a room` 是 `when you are leaving a room` 的省略。
5. **答案：in**

- **考点**：介词。in use 为固定短语，但此处 not being used 本身已表被动进行，填 in 或理解为独立结构。此空实际最佳填法：将 not being used 看完整，空格处不填（但题目要求每空必填），因此 in 表示"正在使用中"的补充表达。

6. **答案：less**
   - **考点**：形容词/副词比较级。than 提示用比较级，electricity 为不可数名词，用 less。
7. **答案：longer**
   - **考点**：副词比较级。than 提示用比较级，long 的比较级为 longer。
8. **答案：has dropped**
   - **考点**：现在完成时。recently 提示用现在完成时，表示近期发生的变化。
9. **答案：instead**
   - **考点**：副词。instead 表示"作为替代"，此处括号内给出 instead 无需变形。
10. **答案：comfortable**
    - **考点**：词性转换。more comfortable than 构成比较级，comfort 变为 comfortable。
