03-11 第1篇

阅读理解 第1篇（说明文）

阅读下面短文，从每题所给的 A、B、C、D 四个选项中，选出最佳选项。

---

① Do you love chocolate? Most people do! But have you ever thought about where chocolate comes from? The story of chocolate goes back thousands of years, and it is much more interesting than you might think.

② Chocolate is made from cacao beans, which grow on cacao trees in warm, tropical areas. The first people to use cacao beans were the Maya and Aztec people in Central America, over 3,000 years ago. However, they didn't eat chocolate the way we do today. Instead, they made a bitter drink by mixing cacao beans with water and spices. This drink was so valuable that cacao beans were even used as money.

③ In the 16th century, Spanish explorers brought cacao beans back to Europe. At first, Europeans didn't like the bitter taste, so they added sugar and milk to make it sweeter. The chocolate drink quickly became popular among rich people. But it was still only a drink — nobody had thought of making solid chocolate yet.

④ It was not until the 19th century that people learned to make chocolate bars. In 1847, a British company created the first chocolate bar that people could eat. Later, in 1875, a Swiss man added milk powder to chocolate and invented milk chocolate — the kind most of us enjoy today. After that, chocolate factories appeared all over the world, and chocolate became something everyone could afford.

⑤ Today, over 4.5 million tons of chocolate are eaten around the world every year. From a bitter drink in ancient America to the sweet treat we know today, chocolate has traveled a long way. The next time you eat a piece of chocolate, remember — you're enjoying a food with a very long and rich history!

注释： cacao bean 可可豆；tropical 热带的；the Maya 玛雅人；the Aztec 阿兹特克人；spice 香料；explorer 探险家

题目

1. Where did cacao beans first come from? A. Europe. B. China. C. Central America. D. Switzerland.

2. Why did Europeans add sugar and milk to the chocolate drink? A. Because they didn't like the bitter taste. B. Because they wanted to sell it for more money. C. Because the Maya people told them to do so. D. Because sugar and milk were very cheap in Europe.

3. Who invented milk chocolate? A. A British company. B. The Maya people. C. A Spanish explorer. D. A Swiss man.

4. We can infer from the passage that chocolate _____. A. was always sweet and delicious B. has changed a lot over thousands of years C. was invented by European people D. will become less popular in the future

5. What is the best title for the passage? A. How to Make Chocolate at Home B. Why People Love Sweet Food C. The History of Chocolate D. Chocolate Factories Around the World

---

答案与解析

1. 【答案】C

【题型】 细节理解

【定位】 第②段第2句 "The first people to use cacao beans were the Maya and Aztec people in Central America, over 3,000 years ago."

【解析】 原文明确指出最早使用可可豆的是3000多年前中美洲（Central America）的玛雅人和阿兹特克人。C 项与原文完全一致。A 项"欧洲"——可可豆是在16世纪才被带到欧洲的（第③段），并非原产地；B 项"中国"原文未提及；D 项"瑞士"——瑞士人发明了牛奶巧克力（第④段），但可可豆的原产地不在瑞士。故选 C。

---

2. 【答案】A

【题型】 细节理解

【定位】 第③段第2句 "At first, Europeans didn't like the bitter taste, so they added sugar and milk to make it sweeter."

【解析】 原文清楚说明欧洲人一开始不喜欢巧克力饮品的苦味，因此加入糖和牛奶使其变甜。A 项"因为他们不喜欢苦味"与原文因果关系完全吻合。B 项"为了卖更高的价钱"原文未提及商业动机；C 项"因为玛雅人告诉他们这样做"属于无中生有——玛雅人的配方是加水和香料而非糖和牛奶；D 项"因为糖和牛奶在欧洲很便宜"原文未涉及价格因素。故选 A。

---

3. 【答案】D

【题型】 细节理解

【定位】 第④段第3句 "Later, in 1875, a Swiss man added milk powder to chocolate and invented milk chocolate..."

【解析】 原文明确指出1875年一位瑞士人将奶粉加入巧克力中，发明了牛奶巧克力。D 项"A Swiss man"与原文完全对应。A 项"一家英国公司"——英国公司在1847年发明的是第一块可食用的巧克力棒，不是牛奶巧克力，属于张冠李戴；B 项"玛雅人"——玛雅人制作的是苦味饮品，与牛奶巧克力无关；C 项"一位西班牙探险家"——西班牙探险家只是将可可豆带到了欧洲。故选 D。

---

4. 【答案】B

【题型】 推理判断

【定位】 第⑤段第2句 "From a bitter drink in ancient America to the sweet treat we know today, chocolate has traveled a long way."

【解析】 全文按时间线展示了巧克力的演变：从3000年前中美洲的苦味饮品，到16世纪欧洲加糖加奶的甜饮，再到19世纪的固体巧克力棒和牛奶巧克力。由此可以推断巧克力在数千年中经历了巨大的变化。B 项"在数千年间发生了很大变化"是合理推断。A 项"一直都是甜的和美味的"与原文矛盾——最初的巧克力是苦的（bitter）；C 项"是欧洲人发明的"与原文矛盾——最早使用可可豆的是中美洲的玛雅人和阿兹特克人；D 项"将来会变得不那么受欢迎"原文未涉及未来趋势，属于无中生有。故选 B。

【技巧点拨】 推理判断题需要综合全文信息进行推断。本题的关键线索分布在多个段落中：苦味饮品→甜饮→固体巧克力→牛奶巧克力，这条变化链清晰地指向"巧克力经历了巨大变化"。

---

5. 【答案】C

【题型】 主旨大意

【定位】 全文结构：第①段引出话题 → 第②段可可豆的起源和最初用途 → 第③段传入欧洲的变化 → 第④段固体巧克力和牛奶巧克力的发明 → 第⑤段总结巧克力的发展历程。

【解析】 全文按时间顺序讲述了巧克力从3000年前到今天的发展历程，是一篇关于巧克力历史的说明文。C 项"The History of Chocolate"（巧克力的历史）最准确地概括了全文主旨。A 项"如何在家制作巧克力"——文章没有介绍制作方法，是说明文而非操作指南；B 项"为什么人们喜欢甜食"过于宽泛——文章聚焦于巧克力的历史而非甜食的吸引力；D 项"世界各地的巧克力工厂"以偏概全——巧克力工厂只是第④段末尾提到的一个细节。故选 C。

【技巧点拨】 选择最佳标题时，标题应能涵盖全文各段的核心内容。过于宽泛（如 B）或过于狭窄（如 D）的选项都不是最佳标题。
