# 阅读理解（应用文）

① **School Green Action — Save Water and Electricity**

② Dear students, our school is starting a Green Action campaign to protect the environment. We need everyone to take part. Saving water and electricity is not only good for our planet, but also helps the school cut down costs.

③ **Save water:** Turn off the tap when you brush your teeth or wash your hands. If you see a leaking tap, please report it to the school office. Take shorter showers and do not leave the water running when you soap up. Use a cup when you brush your teeth instead of letting water run.

④ **Save electricity:** Turn off the lights and fans when you leave a classroom. Do not forget to switch off computers and projectors after class. On sunny days, try to use natural light instead of turning on lights. Unplug (拔掉插头) chargers when your phone or laptop is fully charged.

⑤ Let us work together. Every small action counts. Join our Green Club if you want to do more. Together we can make our school a greener place!

**注释：** campaign 活动；leaking 漏水的；charge 充电
