08-17 第二篇

Learning Self-Discipline

Self-discipline is the ability to control your actions and stick to your goals even when you don't feel like it. [1] It is one of the most important skills you can develop for success in school, work, and life. Without it, dreams often stay just dreams.

The first step to building self-discipline is to set clear goals. You need to know exactly what you want to achieve and why it matters to you. [2] When goals are specific and meaningful, you are more likely to stay motivated when challenges appear. Write down your goals and review them often.

Another key is to create good habits. Start with small changes that you can do every day. [3] For instance, if you want to read more, begin with just 10 minutes each evening. Over time, these small steps add up and become part of who you are. Consistency matters more than perfection.

It also helps to remove distractions. In today's world, phones and social media can easily pull our attention away. [4] Find a quiet place to study, turn off notifications, and focus on one task at a time. You will be surprised how much more you can accomplish when you give your full attention.

Self-discipline is not about being harsh with yourself. [5] It is about making choices that support your long-term well-being. Celebrate small wins, learn from setbacks, and be patient with yourself as you grow. With practice, self-discipline becomes easier and more natural.

选项

A. That is why many successful people credit their achievements to this quality. B. Break large goals into smaller steps so they feel less overwhelming. C. This habit of regular review keeps your goals fresh in your mind. D. Setting clear rules for when and how long you use devices can help. E. It means being kind to yourself while still pushing toward your goals. F. For example, top athletes follow strict training schedules every single day.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- [1] A：
  - **线索**：空前定义自律为"控制行为、坚持目标的能力"，空后强调"这是学业、工作和人生成功最重要的技能之一"。选项A"这就是为什么许多成功人士将成就归功于这一品质"自然承接自律的重要性，与后文"最重要技能"形成呼应。
- [2] B：
  - **线索**：空前说"需要明确知道想达到什么以及为什么重要"，空后说"目标具体且有意义时，面对挑战更容易保持动力"。选项B"将大目标分解成小步骤，让它们不那么令人望而生畏"与前文"明确目标"衔接，提供具体方法论，引出后文"保持动力"。
- [3] C：
  - **线索**：空前提到"从小改变开始、每天坚持"，空后举例"想多读书就从每晚10分钟开始"。选项C"经常回顾的习惯让目标常记于心"与"从小做起"和"每天10分钟"形成逻辑链——小习惯+定期回顾=持续进步。注意选项F"顶尖运动员每天严格训练"虽相关，但是举例型干扰，且与"10分钟阅读"的层次不同。
- [4] D：
  - **线索**：空前说手机和社交媒体易分散注意力，空后建议"找安静处学习、关通知、一次专注一事"。选项D"为使用设备设定何时用、用多久的明确规则"与前文"distractions"呼应，与后文具体做法形成"规则+行动"的递进。
- [5] E：
  - **线索**：空前说"自律不是苛待自己"，空后说"是做出有利于长期幸福的选择，庆祝小进步，从挫折中学习"。选项E"是在朝目标努力的同时善待自己"精准诠释"不苛待"与"长期选择"的平衡，完美收官。
- **干扰项分析**：
  - **F. For example, top athletes follow strict training schedules every single day**：以For example开头的典型干扰项。主题与自律相关，但论述层次错位——段落讨论的是"从小事开始建立习惯"，F的"顶尖运动员"案例过于宏观，且与"10分钟阅读"的具体情境不匹配，容易因"举例"形式被误选。
