11-02 第二篇

Libraries: More Than Just Books

When people think of libraries, they often picture rows and rows of books on shelves. While books are still at the heart of every library, modern libraries offer much more. They provide free internet access, computers, meeting rooms, and educational programs. Libraries serve as community centers where people of all ages come to learn, work, and connect with others. [1] Libraries have evolved into vibrant, multi-purpose spaces that meet the changing needs of the communities they serve, going far beyond their traditional role as book repositories.

One of the most important functions of a library is providing equal access to information. Not everyone can afford to buy books, subscribe to databases, or pay for internet service. Libraries bridge this gap by offering these resources for free. Students can research school projects; job seekers can search for employment; elderly people can learn new skills. [2] By making information freely available to all, libraries play a vital role in reducing inequality and ensuring that knowledge is not limited to those who can pay for it.

Libraries also support lifelong learning. Many libraries host workshops on topics ranging from computer skills to creative writing. Storytelling sessions for children encourage a love of reading from a young age. Book clubs bring adults together to discuss literature and share ideas. Some libraries even lend tools, musical instruments, and art supplies. [3] These programs show that libraries are not just places to borrow books but active learning environments that inspire curiosity and skill development at every stage of life.

The role of librarians has changed too. Today's librarians are information specialists who help people navigate the vast amount of data available online and in print. They teach digital literacy, help with research, and guide readers to reliable sources. In a world of misinformation, this guidance is more valuable than ever. [4] Librarians are trained professionals whose expertise helps people find accurate information, think critically, and make the most of the resources available to them.

Despite their importance, libraries face challenges. Budget cuts threaten services, and some people question whether libraries are still needed in the age of the internet. But studies show that library use is actually increasing, especially among young people and underserved communities. [5] Far from being outdated, libraries remain essential public institutions that adapt to new technologies while continuing to serve their core mission: connecting people with knowledge and with each other.

选项

A. Libraries have evolved into vibrant, multi-purpose spaces that meet the changing needs of the communities they serve, going far beyond their traditional role as book repositories. B. By making information freely available to all, libraries play a vital role in reducing inequality and ensuring that knowledge is not limited to those who can pay for it. C. These programs show that libraries are not just places to borrow books but active learning environments that inspire curiosity and skill development at every stage of life. D. Librarians are trained professionals whose expertise helps people find accurate information, think critically, and make the most of the resources available to them. E. Far from being outdated, libraries remain essential public institutions that adapt to new technologies while continuing to serve their core mission: connecting people with knowledge and with each other. F. For instance, the New York Public Library lends over 30 million items each year and serves as a major cultural center for the city's residents and visitors.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- **[1] A**：
  - **线索**：空前说人们常把图书馆与书架联系、但现代图书馆提供免费网络、电脑、会议室和教育项目、作为社区中心，空后需概括图书馆的转型。A的"evolved into vibrant, multi-purpose spaces"与前文多种功能呼应，"going far beyond their traditional role as book repositories"与"more than just books"主题对应。
- **[2] B**：
  - **线索**：空前说图书馆提供信息平等——非人人买得起书和网络、图书馆免费提供、学生研究、求职者找工作、老人学技能，空后需总结信息平等的社会意义。B的"making information freely available to all"概括前文免费资源，"reducing inequality and ensuring that knowledge is not limited to those who can pay"与"not everyone can afford"呼应。
- **[3] C**：
  - **线索**：空前说图书馆支持终身学习——电脑技能工作坊、儿童故事会、读书俱乐部、借出工具乐器，空后需总结这些活动的意义。C的"These programs show that libraries are not just places to borrow books"与各项活动呼应，"active learning environments that inspire curiosity and skill development at every stage of life"概括终身学习价值。
- **[4] D**：

- **线索**：空前说图书馆员角色改变——信息专家、教数字素养、帮助研究、指向可靠来源、虚假信息时代指导更珍贵，空后需总结图书馆员的专业价值。D的"trained professionals whose expertise helps people find accurate information"与前文信息专家角色呼应，"think critically"与"misinformation"时代需求对应。

- **[5] E**：
  - **线索**：空前说图书馆面临挑战——预算削减、被质疑是否需要、但使用量实际增加，空后需总结图书馆的持续重要性。E的"Far from being outdated"回应"question whether libraries are still needed"，"remain essential public institutions that adapt to new technologies"与"library use is actually increasing"对应，是全文收尾。

- **干扰项分析**：
  - **F. For instance, the New York Public Library lends over 30 million items each year and serves as a major cultural center for the city's residents and visitors.**：以For instance开头，为具体图书馆案例（纽约公共图书馆）。各空均为概括或过渡句；[1]或[2]易被误选，但两空分别需图书馆转型概括与信息平等总结，不需要具体图书馆的数据案例。
