11-07 第一篇

Healthy Eating: Fuel for Body and Mind

What we eat affects not only our bodies but also our minds. A balanced diet gives us the energy we need for school, sports, and daily activities. It helps us grow, strengthens our immune system, and keeps our bones and muscles healthy. On the other hand, too much junk food, sugar, or processed food can leave us tired, affect our mood, and increase the risk of health problems later in life. [1] Making smart food choices is one of the most important things we can do for our health, and it is never too early—or too late—to start.

A healthy diet includes a variety of foods from different groups. Fruits and vegetables provide vitamins, minerals, and fiber. Grains like rice and bread give us energy. Protein from meat, fish, eggs, or beans helps build and repair our bodies. Dairy products support strong bones. No single food provides everything we need, so eating a mix of different foods is the key. [2] Variety is the secret to a balanced diet, ensuring that our bodies get the full range of nutrients they need to function well.

Breakfast is often called the most important meal of the day, and for good reason. After a night of sleep, our bodies need fuel to start the morning. Students who eat breakfast tend to concentrate better in class and perform better on tests. Skipping breakfast can lead to low energy, irritability, and overeating later. A simple breakfast—such as oatmeal, fruit, or eggs—can make a big difference. [3] Starting the day with a nutritious meal sets the tone for better choices throughout the day and supports both physical and mental performance.

In today's busy world, many people find it hard to eat well. Fast food is convenient but often high in salt, sugar, and fat. Advertising pushes unhealthy snacks and drinks, especially toward young people. However, healthy eating does not have to be complicated or expensive. Cooking at home, packing lunches, and choosing water over sugary drinks are small changes that add up. [4] With a little planning and awareness, we can develop eating habits that support our goals and improve our quality of life.

The habits we form when we are young often last a lifetime. Learning to enjoy healthy foods, understanding what our bodies need, and cooking simple meals are skills that will serve us well into adulthood. Families and schools can help by offering nutritious meals and teaching about nutrition. [5] Building a foundation of healthy eating habits in childhood is an investment in a healthier, happier future, and it is something we can all work toward together.

选项

A. Making smart food choices is one of the most important things we can do for our health, and it is never too early—or too late—to start. B. Variety is the secret to a balanced diet, ensuring that our bodies get the full range of nutrients they need to function well. C. Starting the day with a nutritious meal sets the tone for better choices throughout the day and supports both physical and mental performance. D. With a little planning and awareness, we can develop eating habits that support our goals and improve our quality of life. E. Building a foundation of healthy eating habits in childhood is an investment in a healthier, happier future, and it is something we can all work toward together. F. For example, the Mediterranean diet, rich in olive oil, fish, and vegetables, has been linked to lower rates of heart disease in many studies.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- **[1] A**：
  - **线索**：空前说饮食影响身体与心智——均衡饮食提供能量、助生长、强免疫、强骨骼肌肉，垃圾食品与糖类过多导致疲劳、影响情绪、增加健康风险，空后需总结明智选择食物的意义。A的"Making smart food choices"与前文对比呼应，"one of the most important things we can do for our health"与"affects not only our bodies but also our minds"对应，"never too early—or too late—to start"鼓励行动。
- **[2] B**：
  - **线索**：空前列举食物种类——果蔬提供维生素矿物质纤维、谷物供能、蛋白质助生长修复、奶制品强骨骼，强调没有单一食物能满足所有需求，空后需总结多样性的关键作用。B的"Variety is the secret to a balanced diet"与前文"eating a mix of different foods"呼应，"full range of nutrients they need to function well"与前文各营养素对应。
- **[3] C**：
  - **线索**：空前说早餐的重要性——睡眠后需要能量、吃早餐的学生专注力与成绩更好、不吃早餐导致低能量与暴食，简单早餐即可带来改变，空后需总结早餐对全天的影响。C的"Starting the day with a nutritious meal"与前文早餐对应，"sets the tone for better choices throughout the day"与"concentrate better"和"perform better"逻辑延伸，"physical and mental performance"与前文学业表现呼应。
- **[4] D**：

- **线索**：空前说现代生活的挑战——忙碌、快餐便利但高盐高糖高脂、广告推不健康食品，同时提到健康饮食不必复杂——在家做饭、自带午餐、选水代替含糖饮料，空后需总结规划与意识可带来的改变。D的"With a little planning and awareness"与前文"healthy eating does not have to be complicated"呼应，"support our goals and improve our quality of life"总结健康饮食的回报。

- [5] E：
  - **线索**：空前说童年习惯影响一生——学会享受健康食物、了解身体需求、会做简单饭菜，家庭与学校可提供营养餐与营养教育，空后需总结童年养成习惯的长远价值。E的"Building a foundation of healthy eating habits in childhood"与前文"habits we form when we are young"呼应，"investment in a healthier, happier future"与"last a lifetime"对应，是合理收尾。

- **干扰项分析**：
  - **F. For example, the Mediterranean diet, rich in olive oil, fish, and vegetables, has been linked to lower rates of heart disease in many studies.**：以For example开头，为地中海饮食的具体研究案例。各空均为概括或过渡句；[2]易被误选因涉及饮食与健康，但该空需概括多样性与平衡饮食，而非某一特定饮食模式的研究结果。
