12-13 第二篇

Winter Sports: Fun and Fitness in the Cold

When temperatures drop and snow covers the ground, many people head outdoors for winter sports. Skiing, snowboarding, ice skating, and sledding are popular activities that turn cold weather into an opportunity for exercise and enjoyment. Winter sports are not just recreational—they build strength, improve balance, and boost mental health by getting people active during the darkest months of the year. [1] Winter sports offer a unique combination of physical challenge and natural beauty, making them an appealing way to stay fit and have fun even in the coldest seasons.

Skiing is one of the oldest and most widely practiced winter sports. It originated thousands of years ago in Scandinavia as a means of transportation across snowy landscapes. Today, millions of people visit ski resorts every winter. There are different styles, including alpine skiing, which focuses on speed and downhill runs, and cross-country skiing, which covers flat and hilly terrain and provides an intense cardiovascular workout. [2] The variety within skiing means that there is something for everyone, from beginners seeking gentle slopes to experienced athletes looking for thrilling downhill challenges.

Ice skating is another beloved winter activity. Natural frozen lakes and rivers once served as the only skating surfaces, but today indoor and outdoor rinks make the sport accessible year-round. Figure skating combines athletic ability with artistic expression, while speed skating tests endurance and power. Many children learn to skate at a young age, and for some, it becomes a lifelong passion. [3] Whether practiced on a frozen pond or in a modern arena, ice skating develops coordination, grace, and strength, and it brings joy to people of all ages.

Winter sports can carry risks. Cold temperatures may cause frostbite or hypothermia if people are not properly dressed. High-speed sports like skiing and snowboarding can lead to injuries such as broken bones or sprains. Wearing helmets, following safety rules, and taking lessons from qualified instructors all help reduce the danger. [4] Proper preparation and respect for safety guidelines allow people to enjoy winter sports with confidence, minimizing the chance of injury while maximizing the fun.

The popularity of winter sports continues to grow worldwide. The Winter Olympics showcase the highest level of competition in events from skiing to curling. Many countries are investing in indoor snow facilities, bringing winter sports to places that rarely see natural snowfall. [5] As access to winter sports expands through technology and investment, more people around the world are discovering the excitement and health benefits of staying active in the winter months.

选项

A. Winter sports offer a unique combination of physical challenge and natural beauty, making them an appealing way to stay fit and have fun even in the coldest seasons. B. The variety within skiing means that there is something for everyone, from beginners seeking gentle slopes to experienced athletes looking for thrilling downhill challenges. C. Whether practiced on a frozen pond or in a modern arena, ice skating develops coordination, grace, and strength, and it brings joy to people of all ages. D. Proper preparation and respect for safety guidelines allow people to enjoy winter sports with confidence, minimizing the chance of injury while maximizing the fun. E. As access to winter sports expands through technology and investment, more people around the world are discovering the excitement and health benefits of staying active in the winter months. F. For example, the 2022 Winter Olympics in Beijing used over 100 snow-making machines to create artificial snow for competitions, as the region receives very little natural snowfall.

答案键（Answer Key）

[1] A [2] B [3] C [4] D [5] E

深度解析

- **[1] A**：
  - **线索**：空前介绍冬季运动——滑雪、单板、滑冰、雪橇，不仅娱乐还增强力量平衡和心理健康，空后需概括冬季运动的吸引力。A的"unique combination of physical challenge and natural beauty"与前文锻炼和户外活动呼应，"appealing way to stay fit and have fun even in the coldest seasons"与冬季运动主题对应。
- **[2] B**：
  - **线索**：空前说滑雪历史悠久——源自北欧交通工具、如今数百万人去滑雪场、分高山和越野两种风格，空后需总结滑雪的多样性。B的"variety within skiing means that there is something for everyone"概括两种风格，"from beginners seeking gentle slopes to experienced athletes"与不同难度对应。
- **[3] C**：
  - **线索**：空前说滑冰也是受欢迎的冬季活动——从天然冰面到现代冰场全年可用、花样滑冰结合运动与艺术、速度滑冰考验耐力、许多孩子从小学习成为终身爱好，空后需总结滑冰的综合价值。C的"Whether practiced on a frozen pond or in a modern arena"与场地变化呼应，"develops coordination, grace, and strength"概括多种技能。

- [4] D：
  - **线索**：空前说冬季运动有风险——冻伤低温症、骨折扭伤、需戴头盔遵守规则请教练，空后需总结安全措施的效果。D的"Proper preparation and respect for safety guidelines"承接前文安全措施，"minimizing the chance of injury while maximizing the fun"平衡风险与乐趣。
- [5] E：
  - **线索**：空前说冬季运动全球普及——冬奥会展示最高水平、许多国家投资室内雪设施让少雪地区也能参与，空后需展望未来发展。E的"access to winter sports expands through technology and investment"与前文室内设施呼应，"more people around the world are discovering the excitement and health benefits"是全文收尾。
- **干扰项分析**：
  - **F. For example, the 2022 Winter Olympics in Beijing used over 100 snow-making machines to create artificial snow for competitions, as the region receives very little natural snowfall.**：以For example开头，为具体案例（北京冬奥会造雪机）。各空均为概括或过渡句；[5]易被误选因涉及冬季运动扩展，但该空需概括全球趋势的总体展望，而非某次冬奥会的具体造雪数据。
