04-06 第1篇

阅读理解（应用文） "Little Einsteins" Campus Science Fair — Spring 2027

Bright Future Middle School
Science is not just in textbooks. It is in the air, the kitchen, and the playground.

---

1. About the Fair

The Science Department is organising the **11th "Little Einsteins" Campus Science Fair**. Students are invited to design a small experiment, poster, or model that answers one simple question: **"Why does this happen in daily life?"**

---

2. Date & Place

Item	Information
Opening ceremony	Friday, 23 April, 3:30 p.m.
Main fair	Saturday, 24 April, 9:00 a.m. — 4:00 p.m.
Venue	School Sports Hall (1F) + Science Building (2F)
Visitors	All students, teachers, parents, and the Grade 6 pupils from our sister primary school

---

3. Groups

- **Group A — Kitchen Science**: e.g. why does rice stick together? Why does bread rise?
- **Group B — Green Earth**: e.g. how to save water in daily life, how rubbish is sorted.
- **Group C — Space & Sky**: e.g. how a simple paper rocket flies; why the sky turns red at sunset.
- **Group D — Free Topic**: any clever idea you can test or show safely.

Each project must be prepared by a **team of 2 — 4 students** from the same grade.

---

4. Important Rules

1. Projects with **open fire, strong acids, or dangerous animals** are not allowed.
2. Posters should be **A1 size (594 × 841 mm)** and include clear diagrams.

3. Each team is given a **1-metre table**; please do not bring huge models that cannot fit.
4. During the fair, at least **one team member** must stay at the stall to answer questions.
5. Mobile phones may be used for videos, but **do not play music loudly**.

---

5. How to Join

- Step 1: Download the **Project Plan Form** from the school website.
- Step 2: Fill in the form with your team name, question, and method.
- Step 3: Email it to science@bfms.edu.cn before **Monday, 12 April, 8:00 p.m.**
- Step 4: Wait for the teacher's feedback within 3 school days.
- Step 5: Pick up your table number and name card from the Science Office on Thursday, 22 April.

---

6. Prizes

- **Gold Einstein Award:** 3 teams (one per grade) — free visit to the City Science Museum.
- **Silver Einstein Award:** 6 teams — a book gift set and **"Future Scientist"** certificate.
- **Best Poster Award:** 4 teams — a beautiful handmade **microscope bookmark**.
- **Audience Star:** 1 team chosen by visitors' votes — featured in the school magazine.

Remember: A good science question is always more valuable than a fancy answer. See you at the fair!

根据文章内容，选择最佳答案。

1. When is the main science fair held?

A. Friday, 23 April, 3:30 p.m.
B. Saturday, 24 April, 9:00 a.m. — 4:00 p.m.
C. Sunday, 25 April, all day.
D. Thursday, 22 April, afternoon.

2. Which of the following projects would BEST fit into Group A (Kitchen Science)?

A. Why does ice melt in the sun?
B. Why does bread rise?
C. Why does the sky turn pink at sunset?
D. How to sort plastic bottles.

3. How many students are needed in one team?

A. Only one, working alone.
B. 2 to 4 students from the same grade.
C. At least 5 students.
D. One student and one parent.

4. Which of the following is NOT allowed at the fair?

A. Using a mobile phone for videos.
B. Using A1 posters with clear diagrams.
C. Bringing open fire or strong acids.
D. Having a team member at the stall to answer questions.

5. What is the prize for the "Audience Star" team?

A. A trip to the City Science Museum.
B. A handmade microscope bookmark.
C. A book gift set.
D. Being featured in the school magazine.

答案与解析

1.
【答案】B
【题型】细节理解题
【定位】第2节表格 "Saturday, 24 April, 9:00 a.m. — 4:00 p.m."
【解析】主场在周六。故选 B。

2.
【答案】B
【题型】细节理解题
【定位】第3节 Group A "why does bread rise?"
【解析】面包为何会发酵属厨房科学。故选 B。

3.
【答案】B
【题型】细节理解题
【定位】第3节 "team of 2 — 4 students"
【解析】2—4 人同年级组队。故选 B。

4.
【答案】C
【题型】细节理解题
【定位】第4节 "open fire, strong acids..."
【解析】明火与强酸被禁。故选 C。

5.
【答案】D
【题型】细节理解题
【定位】第6节 "Audience Star... featured in the school magazine"
【解析】观众之星登校刊。故选 D。

词汇注释（超纲词）

- **venue** [n.] 场地
- **microscope** [n.] 显微镜
- **acid** [n.] 酸
