City Red Cross
SUMMER FIRST-AID BASICS — FREE LEAFLET FOR STUDENTS
"Five minutes of knowledge can save a life."

Dear students and families,

Summer is coming. Heat, water, and the kitchen are three common places where small accidents happen. This short leaflet gives you **five clear and simple first-aid steps** for common problems. Please keep it in your schoolbag. In an emergency, **always call 120 first** if the injury is serious.

---

1. Small Cuts and Bleeding

1. **Wash your hands** with clean water and soap if possible.
2. **Press** the cut gently with a clean cloth for 5 minutes.
3. **Clean** the wound with clean running water (not alcohol, not soy sauce, not toothpaste).
4. **Cover** it with a clean bandage.
5. If the cut is **deep** or the bleeding does not stop, call **120**.

2. Minor Burns (for example, from a hot pan)

- Run **cool water** (not ice water) over the burn for **at least 10 minutes**.
- Do NOT break **blisters**, and do NOT put **butter**, **egg white**, or **toothpaste** on the burn.
- Cover with a clean soft cloth and go to the clinic if it is larger than a coin.

3. Nosebleed

- Sit down and lean **slightly forward**, not backward.
- Gently **pinch the soft part** of the nose (not the bony part) for 10 minutes.
- Breathe through the mouth.
- If bleeding does not stop after 15 minutes, go to the hospital.

4. Heatstroke (on very hot days)

Signs: hot dry skin, headache, tiredness, confusion.

- Move the person to a **cool, shaded place**.
- Remove heavy clothing.
- Wet the skin with cool water; use a fan if possible.
- Give small sips of water if the person is awake.
- Call **120** if the person is confused, unconscious, or has a very high body temperature.

5. Choking on Food

For an **adult or older child** who cannot speak or breathe:

1. Stand behind the person.
2. Make one hand into a fist, place it a little above the belly button.
3. Hold the fist with your other hand.
4. Give **five quick upward pushes** into the belly.
5. Repeat until the food comes out, or call **120** at once.

Do not use this method on very young babies under 1 year. Use soft back-slaps and chest-pushes, and call 120 immediately.

Important Reminders

DO	DO NOT
Stay calm, speak softly	Run and shout unnecessarily
Call 120 early for serious injuries	Wait too long before calling a doctor
Use clean cloth and water	Use soy sauce, toothpaste, or old folk tricks
Help the person lie in a comfortable position	Move someone with a possible neck injury

---

Free Training

The **City Red Cross** offers a **free 2-hour first-aid class** for students aged 12—16 every Saturday in May and June.

- **Place:** Red Cross Training Hall, 5 Peace Road
- **Time:** 10:00 a.m. — 12:00 p.m.
- **Sign up:** online at www.citrycross.cn or by phone 010-6699-8866
- **Age limits:** 12—16 (with an adult if under 13)
- **What you'll learn:** bandaging, recovery position, CPR basics, and child choking

Every student who finishes the class will receive a small **First-Aid Card** with the steps above and a **free hand-size first-aid kit**.

Stay safe. Help others safely. Have a bright summer.

A. Lying flat with head back.
B. Sitting down and leaning slightly forward, pinching the soft part of the nose.
C. Jumping and waving arms.
D. Running to open the window.

4. Which of the following is a sign of heatstroke?

A. Very cold wet skin and strong appetite.
B. Hot dry skin, headache, tiredness, and confusion.
C. Loud laughter only.
D. Deep sleep with no headache.

5. Who can join the free first-aid class?

A. Only adults over 30.
B. Students aged 12—16 (with an adult if under 13).
C. Only children aged 5.
D. Only nurses.

答案与解析

1.
【答案】B
【题型】细节理解题
【定位】Section 1 步骤1—2
【解析】先洗手再按压。故选 B。

2.
【答案】C
【题型】细节理解题
【定位】Section 2 "Do NOT put butter..."
【解析】禁忌:黄油/蛋清/牙膏。故选 C。

3.
【答案】B
【题型】细节理解题
【定位】Section 3
【解析】坐下前倾、捏软处。故选 B。

4.
【答案】B
【题型】细节理解题
【定位】Section 4 "Signs"
【解析】热射病症状。故选 B。

5.
【答案】B
【题型】细节理解题
【定位】Free Training "Age limits: 12—16"
【解析】12—16岁学生，13岁以下需成人陪同。故选 B。

词汇注释（超纲词）

- **bandage** [n./v.] 绷带；包扎
- **blister** [n.] 水泡
- **heatstroke** [n.] 热射病/中暑
