05-26 第2篇

阅读理解（应用文） Starlight Middle School Robotics Club — Recruiting New Members!

STARLIGHT MIDDLE SCHOOL · ROBOTICS CLUB *"Think it. Build it. Test it."*

Who are we? We are a student-led club of about 40 middle school students. Every week we design, build and program small robots. Some robots pick up ping-pong balls; some follow a black line on the floor; our newest robot can even sort toy bottles by colour!

Who can join?

- Any student in **Grade 7 — Grade 9** at Starlight Middle School.
- **No experience is needed.** If you are curious and ready to try, we welcome you!
- Both girls and boys are equally welcome. About half of our current members are girls.

What will you learn?

1. Basic mechanical parts — motors, wheels, gears.
2. Simple block-based programming (we start with a kids' programming tool, then move to Python for senior members).
3. Teamwork, problem-solving and how to give a short project talk.

When and where do we meet?

- **Every Wednesday, 16:30 — 18:00** — Robotics Lab, Room 305 (Building B).
- **Every Saturday, 9:00 — 11:30** — Optional deeper practice during exam-free weeks.

Snacks are provided at every Saturday session.

How to join

Step 1. Fill in the green paper form at the **school gate notice board** or download it at *starlight-school.cn/robotics*. **Step 2.** Ask your homeroom teacher to sign the form. **Step 3.** Return the form to **Mr. Li Wei** in Room 305, **before Friday 5 June, 2027**. **Step 4.** Come to the "Welcome Night" on **Tuesday 9 June, 18:30 — 19:30** to meet your new team.

Membership fee Free. All materials and tools belong to the school. Members must, however, promise to handle tools and robots carefully.

Special chances this year

- **City Robotics Carnival** — Saturday 24 October, 2027. Top teams will be chosen to represent our school.
- **Summer "Robot for a Farmer" project** — July 2027. Our club will design a small robot to help pick weeds in a school vegetable garden.

A few important rules

- Safety glasses must be worn when using the glue gun or soldering iron.
- **Never** take any tools or robot parts home unless Mr. Li has signed a note.
- If you miss three meetings in a row without a good reason, your place may be given to a student on the waiting list.

Questions? Talk to **Mr. Li Wei** (Room 305), or send an email to *robotics@starlight-school.cn*.

We can't wait to see what you will build!

根据材料内容，选择最佳答案。

1. Who can join the Robotics Club?

A. Only boys in Grade 9.
B. Any student in Grade 7 — Grade 9, with no experience needed.
C. Only students who already know Python.
D. Only teachers.

2. When are the normal weekly meetings?

A. Every Monday after school.
B. Every Wednesday, 16:30 — 18:00, in Room 305.
C. Every Sunday morning.
D. Every day at lunch.

3. What is Step 3 for joining the club?

A. Paying a fee to Mr. Li.
B. Returning the signed form to Mr. Li Wei in Room 305 before 5 June, 2027.
C. Inviting a friend to join with you.
D. Taking a photo with a robot.

4. How much does it cost to be a member?

A. 100 yuan per month.
B. 50 yuan per month.

C. 30 yuan per term.
D. Nothing; membership is free.

5. What will happen if a member misses three meetings in a row without a good reason?

A. The member must pay a fine.
B. The member's place may be given to a student on the waiting list.
C. The member must build one extra robot.
D. The member's phone will be taken away.

答案与解析

1.
【答案】B
【题型】细节理解题
【定位】"Who can join?" 部分
【解析】7—9 年级都可申请，无需经验。A/C/D 均不符。故选 B。

2.
【答案】B
【题型】细节理解题
【定位】"When and where do we meet?" 部分
【解析】固定周三 16:30—18:00 在 305。A/C/D 均不符。故选 B。

3.
【答案】B
【题型】细节理解题
【定位】"Step 3." 部分
【解析】第 3 步为交表给李老师。A/C/D 均无据。故选 B。

4.
【答案】D
【题型】细节理解题
【定位】"Membership fee · Free."
【解析】免费会员。A/B/C 均错。故选 D。

5.
【答案】B
【题型】细节理解题
【定位】"A few important rules · If you miss three meetings in a row without a good reason, your place may be given to a student on the waiting list."
【解析】位置可能被等候者占用。A/C/D 均无据。故选 B。

词汇注释（超纲词）

- **robotics** [n.] 机器人学
- **program (programming)** [v./n.] 编程
- **glue gun** [n.] 热熔胶枪
- **soldering iron** [n.] 电烙铁
